California Wins
They Strangled Her.
Mussolini's Daughter.
Tearful, But Happy.

By ARTHUR BRISBANE

THE PACIFIC coast beat the Riviera yesterday. Elizabeth Ryan and Mary K. Browne, both of California, playing in doubles, defeated Suzanne Lenglen and Didi Vlasto, both French. Seventeen thousand spectators saw the California girls win 3-6, 9-7, 6-2.

However, Mademoiselle Lenglen will get revenge when the time comes. She is undoubtedly an unbeatable wonder for the present, when at her best, and represents admirably the power of the French nation.

MRS. LOUISE CALVERT, aged 32, was hanged by the neck in England yesterday and strangled to death. Her three children, including one baby, fortunately, did not understand what was happening. The woman protested to the last her innocence of the charge that she had strangled her landlady.

The hangman has now strangled her. The landlady and British justice are revenged.

IT IS SAID, perhaps without authority, that Mussolini plans to marry his daughter to the Italian crown prince.

The daughter is a fine young Italian girl, with her father's powerful chin, and the Italian royal family would be strengthened by such a marriage, and it wouldn't be anything new.

Mussolini is no more of an upstart than Bonaparte was, and the Emperor of Austria, proud head of the Ancient Hapsburgs, was glad to marry his daughter to Bonaparte as his second wife.

NEWS OF FINANCE, cheerful as ever yesterday. Freight car loadings exceeded all records for five years, passing the million mark four weeks running. Those tearful securities, the railroad stocks, seem to be doing well.

New Jersey Central, which already paid 8 per cent. to stockholders, added an extra $2 to yesterday's quarterly dividend, making $4 for three months, a rate of 16 per cent a year.

GIRL IS KILLED AND FIVE OTHER PERSONS INJURED IN AUTO CRASH

Miss Myrtle Whitten, 17, New Holland, Dies When Car Hits Parked Machine Near Cedarville.

CEDARVILLE, O., June 26.—A girl was killed and five persons were injured when the automobile in which they were riding crashed into another machine standing along the Cedarville-Jameston pike, two miles south of here, early today.

Miss Myrtle Whitten, 17 years old, New Holland, Ohio, was fatally injured in the crash.

Miss Whitten was a passenger in the motor car which was driven by Guy Noble, Springfield. Mr. and Mrs. Kendall, Springfield, and their two-year-old and one-month-old children also were occupants. All were injured.

Noble's automobile crashed into a motor car owned by a man named Cavanaugh, Cedarville, which was standing in front of a farm house at the spot where the accident occurred.

Cavanaugh's machine was standing near a sharp curve on the pike. No one is believed to have misjudged the distance between the parked machine and the curve and to have driven his machine head-on into the other car.

Miss Whitten was hurled through the windshield, receiving a punctured jugular vein and a severed artery. She died within five minutes after the crash.

The two-year-old Kendall baby was tossed from the automobile and was later found pinned beneath one of the front wheels. He was slightly injured.

Donald Morrow, 19, Helper, is Believed Recovering.

Charles Stype, 36, Toronto, driver for the Chippewa Oil company, died in the City hospital at 6:30 o'clock last night, as a result of injuries sustained Wednesday evening when a heavily loaded oil truck overturned three times on the Arroyo-Congo road.

Stype, whose left arm was amputated at the shoulder, and who also sustained injuries to his head and suffered from nervous shock, lapsed into a state of consciousness seven hours after the accident in which condition he remained until his death.

Donald Morrow, 19, Wellsville, a helper, who was internally injured is recovering at the hospital.

The accident occurred when the five-ton truck, driven by Stype, enroute to New Cumberland to make deliveries, struck a rut in the road. The sudden stop is believed to have caused the truck to overturn. Stype and Morrow were pinned in the cab of the machine, the former's arm being caught beneath the gasoline tank.

150 PERSONS ABOARD EXPRESS SHAKEN UP BY LOCOMOTIVE EXPLOSION

Boiler of Engine Drawing Freight Train Over Main Line of New York, New Haven and Hartford Railroad Falls Onto Opposite Track and Hits "Cape Codder."

CRACK SUMMER TIME NIGHT FLYER IS DERAILED NEAR KINGSTON, R. I.

Blast Tears Hole 15 Feet Deep in Roadbed, Causing Locomotive and First Sleeper of Passenger Train to Topple on Their Sides and Yanks Two Other Cars From Rails.

KINGSTON, R. I., June 26.—Three trainmen were killed, two were seriously injured and 150 passengers were shaken up and bruised early today when the boiler of a locomotive drawing a New Bedford, Mass., to New London, Conn., freight train over the main line of the New York, New Haven and Hartford railroad exploded, fell onto the opposite track and wrecked the "Cape Codder," crack summer-time night express between New York and Hyannis, Mass.

The dead:

W. J. MOULTON, of Providence, R. I., engineer of the freight locomotive.

JOHN J. MULVANEY, of Providence, fireman aboard the freight locomotive.

GEORGE C. HATHAWAY, of Padanaram, Mass., head brakeman of the freight train.

The seriously injured:

CHARLES BENNETT, of New Haven, Conn., fireman of the express locomotive.

CHESTER FRAZIER, of New York, engineer of the express locomotive.

The explosion of the boiler tore a hole 15 feet deep in the roadbed, caused the locomotive and the first Pullman sleeper to topple on their sides and yanked two other Pullmans of the seven Pullman car train from the rails.

The explosion and wreck was the most unusual in the history of the railroad.

Engineer Frazier of the express train said he was making between 40 and 50 miles an hour on a clear track before dawn when he came abreast of the freight train. There was a sudden grinding of brakes on the freight and before Frazier could throw on his emergency brakes a dark mass loomed up in front of him. This was freight cars which had been thrown from the adjoining track by the sudden throwing on of the emergency brakes with the bursting of the locomotive boiler.

The explosion of the boiler ripped open the freight locomotive cab, sending the occupants in all direction.

There were 60 freight cars attached to the freight train locomotive.

Traffic was tied up on the main line for hours.

BEATTY OPENS FIGHT JULY 11

Democratic Candidate for Governor to Speak in Dayton.

J. C. B. Beatty, East Liverpool pottery jobber, will open his campaign for the Democratic gubernatorial nomination at the August 10 primaries in Memorial hall, Dayton, Sunday afternoon, July 11, he announced today.

Beatty, who was defeated two years ago by Gov. Donahey, made the announcement of his plans in telegrams sent to Dayton and other newspapers, in which he suggested July 4 or July 11 as the date. However, arrangements could not be made for the use of Memorial hall on July 4.

In his announcement, Beatty said: "The Savior saw no harm in getting the ox out of the pit on Sunday, therefore I am certain He will approve of my opening a campaign on Sunday for the purpose of bringing about the release of hundreds and thousands of martyrs that are unjustly imprisoned at this hour on account of the injustice of most damnable inhuman methods."

Beatty said he would be the only speaker at the Dayton meeting.

One question for each day is provided. The parent will find it interesting and helpful to have the child take up the question each day and aid it in finding the answer in the Scriptures, thus developing a knowledge of the Bible and where to find in it the things decided. Send or bring the little folks to the class Sunday at 1:45 p. m. The "Ceramic Cafeteria Auditorium," 121 West Fifth Street.

Rear End Rail Collision Brings Death to 15

Fifteen persons were killed and fifty seriously injured when the Cincinnati Limited crashed into the rear of the Pittsburg-Washington Express near Blairsville, Pa. The photograph gives a vivid impression of the Limited after it had plunged through a part of the rear sleeping car of the Express.

Dutch Farmers Progressive.

Because Holland is an agricultural nation the exceptional progress made there in agriculture since the war has attracted wide notice. The farmers buy the bulk of their materials including seed, fertilizer and equipment, on a co-operative basis and two-thirds of their crops and dairy products are handled through co-operative agencies. Milk is sold on the percentage of butterfat it contains and this is having an effect on the productivity of the herds.

A STANDARD FOR THE PEOPLE

"millions now living will never die"

After six thousand years of effort man points proudly to our present-day civilization as the acme of his attainments.

A civilization stooping to brutalities too inhuman for savages, makes the standards of Christianity but empty and hollow professions.

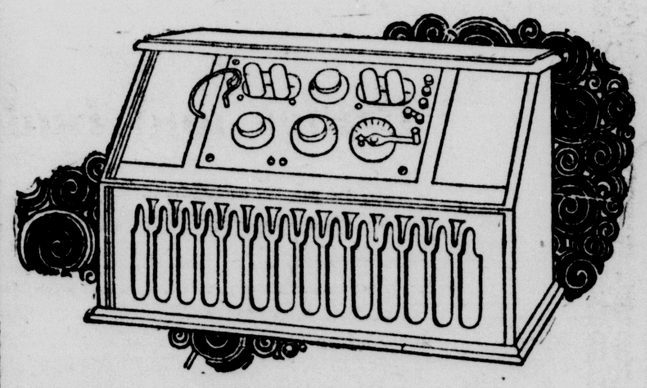

From this hypocrisy there is a tearing away. A spirit of lawlessness flouts laws and customs with an abandon that does not stop to consider the consequences, so persistent are the attempts for release. But what new standards—social, political, and religious—are to succeed the present?

In the fulfillment of prophecies, so marked at the present time, there is outlined a program that was foretold in the Bible, a standard that promises adoption, because present troubles were foretold as shaping the Standard for the People.

The Foolkiller

The foolkiller is abroad in the land. He works all the year, of course, but the summer is really his busy season. His aim is sure and fatal. There is only one way to avoid him: Don't be a fool.

To take only one instance out of a day's news, three girls and three boys set out in a little punt on the St. Mary's river the other day. One of the boys started to demonstrate how he won a Charleston contest. One of the six was rescued.

In the first place, six people are too many for a small boat. Three are enough for the average rowboat. In the second place, monkey-business in small boats is one of the foolkiller's most deadly weapons.

Why people should think it funny to rock small boats is one of the unsolved mysteries of human nature. It isn't funny to drown, or to come close to drowning and be rescued. Nor is it really funny to endanger the lives of one's friends.

It isn't really funny to venture out into water beyond one's depths when one cannot swim enough to have a generous margin of safety.

It isn't really funny to show how fast one can drive—and end in a hospital.

It isn't funny to hug the road just to be smart—and sideswipe oneself, one's friends and the strangers one meets down the hill and into the morgue.

There is something about the good old summer time which lets loose all the silly desire to show off that is latent in human nature.

The foolkiller is always waiting. But he doesn't bother quiet, sensible people much. The smart Alec is his chosen game.

Germany Pays

Germany made her payments during the past winter with difficulty, because of unemployment and business failures—but she paid.

Seymour Gilbert, the American agent-general whose job it is to collect and distribute German reparation money under the Dawes plan, pays Germany a sincere compliment. During the first nine months of the second year under that plan, ending June 30, he reports Germany paid more than any conquered nation before ever paid her victors, meeting all her obligations, and meeting them entirely out of her own resources.

It was not such a great sum judged by American standards, but it seems great for Germany, everything considered. It amounted to 821,000,000 gold marks, over $200,000,000. That sum is divided among 11 countries—Germany's war creditors—and the thing of particular interest in America is that our country gets part of it.

The American portion is small, only $7,000,000. Yet it is something to cheer about when America gets anything at all out of Germany, after all the billions the kaiser and his crowd forced this county to spend in making the seas safe for Americans and the world safe for—well, whatever it was that we made it safe for.

No More Skirts

The skirt is doomed, says Booth Tarkington, the novelist. "Fifty years from now the skirt, as an article of women's apparel, will have disappeared entirely."

This statement doesn't arouse the consternation it might have aroused a decade or two ago. We are not easily shocked any more. Besides, there is little left of the skirt now. It seems plainly evolving, or devolving, into nothing right before our eyes.

Tarkington says he expects to see the time when all women will regularly wear garments just about the same as man's. There is no reason, he thinks, why they shouldn't. It isn't a question of modesty, but of custom and fitness.

We guess we can stand it, if we must. Bloomers are not so bad, anyway, though they used oddly to shock us early in this revolutionary century. Or if it's to be trousers, that too probably doesn't matter much. We can get used to anything. They'll still be the same women.

X-Rays On Pictures

The X-ray is now being used to decide as to the genuineness of old oil paintings at Harvard university and elsewhere. The X-ray picture is checked up with the surface picture, and with the findings of the expert, and helps to make the final decision.

Next things anyone knows, somebody will be using X-rays to find whether there was or was not a worm in the wormholes in antique furniture. Then where will the antiquer be with his modern mechanical worm-hole maker?

Or will the antique fans love their loot all the more because they have been fooled?

New York's proposed curfew law, closing the cabarets at 3 a. m., should help out-of-town visitors to get up in time for a noon breakfast.

Anyway, if next winter is going to break all records for severity, this summer will be good preparation for it.

If congress really wants to help agriculture, it might benefit two great industries at once by buying up the used cars on the market and giving them to the farmers.

The Terrible Disadvantage of Not Being Able to Write—By Fontaine Fox

NEW YORK DAYBYDAY

By O. O. McINTYRE

NEW YORK, June 26.—Along the meandering mile of Broadway a "morning glory" is a black eye, because it is usually acquired in one of those dawn battles without which a night in a cafe is a total loss. Women receive the decoration as well as men.

They are so common that when there is the sudden flutey tinkle of broken glass from an overturned table some do not even turn around. A cafe fight is always amusing. It usually ends with the belligerents hugging each other and perhaps snapping into a waltz.

Now and then a young girl will emerge from the ladies' room with tumbled hair and disheveled dress and angry red scratches on her cheeks. She has replied forcibly to some cutting remark, and stands dramatically in a circle of admirers like an avenging goddess.

Broadway girls when properly sparked up do not permit an affront to go by with mere words. They fight it out. Sometimes they are coaxed out to the pavement by fearful managers, where they battle until a policeman arrives.

And Tenderloin police are shy of battling women, for often the participants turn on them, and then there is nothing left to do but take a scratching and call the wagon. Until a few years ago women never fought in respectable cafes. Only in sordid Bowery dives.

It may be the quality of hooch that makes Broadway carry a chip on its shoulder in early hours. A roue with a faded lady may overhear the telling of a Pullman car decameron at the next table and suddenly feels righteously insulted. And the battle is on.

A gentleman stares too long at a lady and she informs her escort. Another biff and crash. There used to exist a free masonry among nocturnal pleasure seekers, and if a patron waxed angry he was quickly calmed and buying a drink all around. Those days are gone.

I have often wondered just as Mayor Walker has what those early morning workers, who appear as the pearly mist gives way to dawn, think as they see neurotic New York going home to bed. They see fine clothes, jewels and other glitter and faces flushed with the rosy wine of revelry. It all appears so different and gay from the ordinary tedium of a humdrum day. And yet—

The other morning a group in evening clothes wearing paper mardi gras caps walked out of a cafe just as the sun showed a bloodshot red. They half staggered to a waiting car and one shouted: "Now for a little fresh air." They blazed away and a half hour later in Long Island there was a sickening impact and a rain of glass. Two were scarred for life. Another will never use his legs again.

It used to be a first page story now and then when some hiker would wander off and become lost in the Jersey marshes, to be found almost unconscious from mosquito bites. The Jersey skeeter was like the mother-in-law, a stock joke in vaudeville and comic weeklies. New Jersey went quietly about the task of exterminating the mosquito. Today they do not cause any more annoyance than they do in Gotham.

Along Ninth Avenue railroad tracks at night are many old kindling women who gather there just as the sandwich men collect in Bryant Park at nightfall. The kindling women go about with sacks gathering up odd bits of rubbish which they sell to junk dealers. They are unwashed and ragged and merely stand together like cattle in a rain. Seldom is conversation heard.

HASKIN'S LETTER

By FREDERIC J. HASKIN

Pan American Health Conference.

WASHINGTON, June 26.—The first Pan American Health conference has been called to meet in Washington on September 27 to 29 next, and thereby one more step has been taken toward cementing the nations of the New World into closer cooperation. Coming during the same year which saw the first Pan American Press conference, and which was also marked on June 22 by the celebration at Panama of the Centennial of the first Pan American congress of any sort ever held, the health gathering contributes to making 1926 the outstanding year to date in the development of relations among the governments and peoples of the Americas.

The United States Public Health service is sponsoring the health conference, and preparing the tentative program. Public health officials of 21 American republics are expected to participate. The topic of discussion will include prevention and treatment of certain wide-spread and radical diseases, such as leprosy, malaria, and hookworm, and quarantine conditions in various nations, public sanitation, and health laws and their administration.

The medical men of the western hemisphere have not been without contracts in the past, the Pan American Sanitary Bureau having held several meeting, and another convention of this bureau will be held in 1927 in Peru. The gathering at Washington this year will be in some ways preliminary to that meeting, and out of these medical discussions there is strong hope that certain uniform sanitary treaties will be adopted which will adequately regulate questions such as quarantine regulations, which affect commerce and travel between the nations of the New World.

The United States, through its early efforts in Cuba and later developments in Panama, has set the pace for preventive medicine in the tropical and semi-tropical countries of the two continents. The physicians of this country solved the yellow fever problem, and generally speaking taught the western world how to cope with malaria and other fevers and plagues, and while this work at one time threatened trouble because of our practical black-listing of certain seaports where sanitary regulations and conditions were dangerous, the whole group of American republics has come to cooperate with the United States and welcome our efforts.

That the experience of the last twenty-five or thirty years may be incorporated in international sanitation treaties, so that proper regulations may be administered without friction, is one hope of those interested in the health gathering planned for September at Washington.

Bolivar Congress Centennial.

With the newspapers of the Americas brought into close contact by the first Pan America Press Conference in April and the medical authorities coming together in September, there was also an important celebration at Panama City in June of the 100th anniversary of the "General Assembly of the American Republics," which was held in that city beginning June 22, 1926, and lasting until July 15 of that year. This gathering, often referred to as the Bolivar congress, was the first international gathering of nations of the New World, and hence the forerunner of all that has since developed in the relationships of the republics of North, South and Central America.

The congress of Bolivar seemed at the time a small and far from successful gathering, although time has justified every hope held out for it by its founder. General Simon Bolivar was then the president of Peru. He had fought for the liberation of that nation, of Colombia, of Venezulea, of Bolivia, and of other South American peoples from Spanish rule, and other wars with Spain were going on or threatened, but the freedom of the South and Central Doctrine had been promulgated three years earlier, and a few nations in Europe had recognized the new republics, but others refused to offend Spain by such recognition.

In 1824 Bolivar planned what he hoped would be a great congress of the republics of the New World. His plan was for a sort of league of nations of the New World, although he did not contemplate inviting the United States, which up to that date had pursued a careful policy of aloofness from all international efforts.

The invitations to the gathering at Panama in 1926 were accepted by Colombia, Guatemala, and Mexico, as well as Peru. Chile and the Argentine also expressed approval, but for various reasons never sent delegates. Brazil was then an empire, and while the Emperor approved the project, he did not send delegates because Brazil had been a Portuguese colony, and although it had won independence it remained neutral between Spain and her rebellious colonies.

Great Britain had recognized the republics, and she sent an official delegate who was instructed to meet with the "General Assembly of the American Republics," and be helpful where he could as an adviser. The Netherlands had not recognized the republics, but sent an unofficial delegate to express the sympathy of the king of the Netherlands.

Our Delegates Too Late.

Meanwhile the United States, while not first invited by Bolivar, was invited by Colombia, Guatemala and Mexico as part of their acceptance of the invitation of Peru. President John Quincy Adams, who as secretary of state had helped draft the Monroe Doctrine, desired to accept. He explained to congress that George Washington's famous warning against foreign entanglements referred to Europe and not to free republics in America, which had not existed in Washington's day. Henry Clay was secretary of state and he also approv-

THE SPIRIT OF '76 — WITH IMPROVEMENTS

A New York East Sider met a friend on Third avenue and told him he had quit the buttonhole making trade.

"I'm in the art business now," he said proudly—"such a fine business, too! Lot of money it it!"

"What do you mean—art business?" demanded his friend.

"Well," explained the East Sider. "I go by auction sales, and I buy pictures cheap; then I sell 'em high. Yesterday I bought a picture for twenty-five dollars and today I sold it for fifty."

"What was the subject?"

"It wasn't no subject at all," said the art collector—"it was a picture."

"Sure, I know," said the other. "But every picture has got to be a subject or it ain't a regular picture, you understand. Was this here picture a marine, or a landscape, or a still life, or a portrait—or what? What did it represent?"

"How should I know?" said the puzzled ex-buttonholer. "To me a picture is a picture. This here picture now didn't have no name. It was a picture of three fellows and one flag. One feller had a fife and one feller had a drum and one feller had a headache!"

THREE STARS AT AMERICAN

Barthelmess, Powell and Dorothy Gish in Film Feature.

Three popular and brilliant figures of the screen, last seen together in "The Bright Shawl," are reunited in "The Beautiful City," a First National attraction which is coming on Monday to the American theatre. They are Richard Barthelmess, the star; Dorothy Gish, his leading woman, and William Powell.

All three players are old friends, both on and off the screen. When Dorothy Gish made a series of comedies, several years ago, Barthelmess was her choice of leading man and it was with Dorothy Gish that he made his very earliest success. William Powell made his first big screen hit in a Barthelmess picture with his portrayal of De Vaca in "The Bright Shawl." Ever since that picture Barthelmess has always waited for a chance to cast this able actor in one of his pictures.

William Powell and Dorothy Gish also have a hit of their own to their credit. Miss Gish and Mr. Powell appeared together in "Romola," in which Lillian Gish was starred, and received wide praise for their respective performances.

Mrs. Maude E. Hessinger, of Baltimore, Md., nee Maude Conkle, daughter of Mr. and Mrs. Frank E. Conkle of near Bell school, is a graduate of the newly inaugurated course in practical nursing at Bayview City hospital, Baltimore, Md.

Miss Ruth Kenworthy, of Hammondsville, is convalescing from an operation for appendicitis at the City hospital.

Capt. W. S. C. Stephens, a former airman, recently arrived in Nova Scotia from England to be ordained a priest.

Director J. J. Grafton Is Dead Following Two Weeks' Illness

Former C. & P. Railroad Worker and Active Figure in Local Political Circles, Succumbs Last Night at Home at 11:20 O'clock.

Following an illness of a little more than two weeks, J. J. Grafton, municipal safety-service director, retired railroad worker, and an active figure in political affairs as a Republican, died last night at 11:20 o'clock at his home at 450 Fourteenth street. His death was attributed to complications.

Mr. Grafton was well and favorably known throughout the city and district and in the Cleveland and Pittsburgh railroad centers as a result of his years of association with the Pennsylvania company.

He was a lifelong resident of the city. He was born March 25, 1863. At the age of 16 years he became an employe of the Pennsylvania Railroad company, taking his first job on October 1, 1879. He served continuously with the railroad company until July 1, 1925, when he was pensioned. He first learned the trade of machinist, and following a series of promotions, became assistant foreman of the machine shop here, the post he occupied at the time of his suspension.

He was an active figure in railroad circles, having been vice president of the Cleveland and Pittsburgh Division Veterans' association.

He was a member of the First Presbyterian church. In addition he was affiliated with the Masonic order, the Elks, the Junior Order of United American Mechanics, the Daughters of America and the Ben Hur.

Mr. Grafton probably was primarily responsible for the city's annual chautauqua exhibitions. As a member of the Junior Order, which organization sponsored the first appearance of a chautauqua here, he promoted the event himself and was its chief backer.

Mr. Grafton held the combined posts of safety and service director, having been appointed shortly after the first of the year by Mayor W. L. Fogo, and was active in his duties until illness forced him to his bed.

He was service director of the city on two occasions previously, having been elected both times. He served in 1910 under Ed McKenzie and in 1914 under D. F. Steiner. The office at that time was filled by election instead of by appointment.

As a county committeeman and vice chairman of the Republican Central committee, he had been active for years in political affairs of the city.

News of his death saddened the throng of C. & P. employes who today were holding their annual outing at Summit Beach park, Akron, under auspices of the Veterans' and Athletic associations.

In addition to his wife he is survived by one son, George and three stepsons: James Miles, of East Liverpool; Loree, of Paris, France; and Hammond, of Wellsville.

Two brothers and three sisters are also living: H. B. Grafton, N. F. Grafton, Mrs. C. W. Davidson, Mrs. H. B. Dick and Mrs. F. E. Kerr, all of this city.

Funeral services will be held Monday afternoon at the late residence at 2:30 o'clock, in charge of Rev. Frank H. Magill, pastor of the First Presbyterian church. Burial will be made in Spring Hill cemetery.

ATHENS REPORT OF U. S. CREDIT MAKES TROUBLE

Mystery Surrounds Source of $28,000,000 Loan Yarn.

MARKET IS HIT

Financiers Who Plunged on Stories Met Disaster.

LONDON—Mystery surrounds the source of the report which has bobbed up in Athens and elsewhere on the continent that the United States had decided to release to Greece a credit of $28,000,000—part of a war loan contracted for several years ago in Washington, but which Greece has never received.

Receipt of this sum from the American treasury was the chief condition laid down by Greece for the funding of her war debt to the United States, the refusal of the Washington government to agree having caused the breakdown of debt negotiations.

Shortly after the return of Greek debt negotiations from Washington to Athens, European money markets received what appeared to be a reliable report that the United States government had suddenly changed its policy, and that the $28,000,000 was to be made available to the Greek government, apart from the question of a settlement of the war debt. The immediate result of this report, especially in Athens, was a sensational fluctuation of the drachma, followed, according to reports reaching London, by several financial failures and a general feeling of nervousness in business circles.

Bankers who could see no reason for an alteration of the American policy sat tight, but others plunged on the report with disastrous results.

Efforts have been made to trace the report to its source in Athens, but official inquiries have revealed no tangible evidence of the originators of the report, although it is understood that the American minister has taken the matter up with the Greek foreign office. The burden of his official protest is said to have been that the Pangalos government should have quickly and formally denied the report before it became widespread and reflected upon the integrity of the United States government.

In his representations, the minister also brought forward the cases of various American firms, which, through their dealings in exchange, have suffered on account of the market fluctuations.

SUPREME TRIBE OF BEN HUR WILL BUILD HOME IN INDIANA

CRAWFORDSVILLE, Ind., June 26.—A Ben-Hur home for aged and disabled members of the Tribe of Ben-Hur was authorized by the delegates to the fifteenth biennial session of this fraternal society gathered here this week from 30 states. The new structure, costing approximately $150,000 with a capacity of 45 persons, will probably be located near this city and will be the first unit of what is expected to be an extensive institution which will ultimately include a home and school for orphans and a hospital.

The report of the supreme officers indicate a growth in membership and show total assets of $5,800,000, a gain of $1,300,000 since the last meeting in 1924. As a consequence of this fortunate situation the convention directed the officers to divide a portion of the surplus among the members from time to time as funds permit.

The convention picture was taken in front of the old home of Lew Wallace, author of the book, Ben-Hur, upon which the ritual of the society is based. An address on the necessity of fraternalism in American life was delivered by former Governor Edwin P. Morrow of Kentucky, recently appointed to the United States railroad mediation board by President Coolidge.

An interesting feature of the meeting was the presentation to supreme chief, John C. Snyder, by 175 field workers of a scroll containing the names of over 1,100 new members secured by them in his honor during the month of May.

The delegates confirmed the establishment of the junior department for children from one to 16 years of age, the raising of the age limit to 60 years, making of all certificates incontestable after two years, the addition of double indemnity as a feature of certificates, the acceptance of substantial risks, and the reduction of prohibited occupations from 55 to 3. Hereafter protection will be granted to members without limit as to amount. All fees were abolished. The lodge plan of operation was unreservedly endorsed and the tendency among some societies to minimize its importance was deplored. In the interest of economy it was decided to hold general meetings hereafter quadrennially instead of every two years.

Q. Does a family of four going abroad have to have separate pictures for the passport? L. A. R.

A. A group picture will do. It should be 2½ by 2½ or 3 by 3 inches in size.

Q. Is the more rapid rising and setting of the sun at the equator due to the greater circumference of the earth? L. R. M.

A. The Naval Observatory says the more rapid rising and setting of the sun at the equator is not due to the greater circumference of the earth at that point, but to the fact that at the equator the sun rises and sets in a path perpendicular to the horizon, while in all other latitudes this path is inclined from the perpendicular.

Q. Why is land at the mouth of a river called a delta? A. B. D.

A. The name was given to a tract of land enclosed by the mouths of the Nile river which was shaped like the Greek letter delta. Now the term is used for any land so situated.

Q. Did Stephen A. Douglas outlive Lincoln? S. A. B.

A. Douglas, who was Lincoln's opponent for the presidency in 1860, died June 3, 1861, while Lincoln lived to be re-elected to the office.

Q. Why is the cranberry so-called? H. W.

A. Cranberry was originally craneberry. The fruit is borne on curved stalks which suggest the neck of a crane.

Q. What is the distinction between burglary and robbery? H. T. S.

A. Burglary is larceny committed in the night and becomes robbery if accompanied by violence to the person of the victim.

Q. What is meant by chrism? R. M. N.

A. This is the name of consecrated oil used in anointing, composed of oil and balsam or spices.

Q. Has Edinburgh always been the capital of Scotland? C. B.

A. The old capital of Scotland was the city of Scone in Perthshire said to have been founded by the Roman emperor Agricola about 700 A. D.

Q. Why don't architects include the pantry in the building of new homes? A. R. S.

A. It usually requires too many steps, as the homemaker has to pass to and from the sink or work table to get the utensils and supplies. It also was generally a "catch-all" for dust and for many things which did not belong in the pantry. Generally it is a poor investment since the cost of the average pantry would pay for all the needed built-in equipment of the average kitchen.

Q. Why does the wind blow in gusts? B. C.

A. The Weather Bureau says that this is owing to the friction between the air and the surface of the earth, and to the obstacles to the wind, such as houses, trees, and many other things. These things, friction and obstacles, cause the lower air to be turbulent, and more or less roll and tumble, hence to blow in gusts, as we say.

Q. How many motor camps are there in the United States and which state has the most? J. L. J.

A. There are said to be approximately 10,000 motor camps in the United States and California has the most, numbering 996.

Q. Who was our first minister to Poland? V. K.

A. Mr. Hugh Gibson who went to Poland in 1919 was our first minister to that country.

Q. What causes seasickness? J. D. S.

A. It is due to the peculiar effect of the swells or long rolls of the sea upon the internal ear. What are called the semi-circular canals of the internal ear are certain spaces filled with fruids. They act as a spirit-level to determine our place in space. The pronounced movements of the ship on a rolling sea make undue demands upon these organs, and the symptoms of seasickness develop.

Q. Where does the mocking bird go in the winter time? F. D.

A. The Biological Survey says that the mocking bird is practically non-migratory. Neither the males nor the females go south, but they are usually solitary in the winter.

Q. Please explain the signs of the zodiac. W. L. H.

A. The zodiac was an imaginary band extending around the celestial sphere, having as its middle line the ecliptic or apparent path of the sun. It was fixed at about 16 degrees in width so as to include the orbits of the sun and five planets. The zodiac is probably Babylonian in origin. The figures seem to have been based on the resemblance of the lines connecting the stars in the zodiacal constellations to certain pictorial outlines, which form the substratum of the Assyro-Babylonian cuneiform alphabets, while the animal figures and outlines were chosen for animistic reasons. The signs of the zodiac were carried from Babylonia to Greece, whence they spread throughout the ancient civilized world.

Q. What country has neither prisons nor policemen? R. G.

A. This is said of Ireland.

Q. When were slaves first sold? B. C.

A. The sale of slaves dates back to remote ages. Alexander, when he razed Thebes, sold the people for slaves, 335 B. C. The slave trade from Africa was begun by the Portugues about 1481. The first slaves in the United States were sold by the Dutch to settlers of Viriginia in -1619.

Q. What is the relation between the Bow-bells and Cockneys? N. G.

A. The word "Cockney" is applied to one born within the sound of Bow-bells, the bells of St. Mary-le-bow, in Chesapeake, London, England.

Q. Can fish see? J. E. C.

A. The Bureau of Fisheries says that fish have a sense of sight. They see within a certain radius, depending on the amount of light.

So much interest has been taken in electric-power development in Japan that now more electricity is being generated than can be used.

RUSSELL SCOTT MAY KNOW HIS FATE TONIGHT

Condemned Chicago Slayer Awaits Ruling on Sanity.

JURY TO DECIDE

Decision Means Hanging or Life in State Hospital.

CHICAGO, June 26.—The fate of Russell Scott—death on the gallows or life in the state hospital for the criminal insane—may be known as early as tonight.

A jury for the second time is trying Scott for his sanity. A year ago he was found insane and committed to Chester asylum, the writ ordering the trial coming just two hours before Scott was scheduled to hang for the murder of Joseph Mauer, a drug clerk

Recently a commission of alienists reported Scott had recovered his sanity and recommended he be returned to Cook county to hang. This second trial was ordered to check on the commission's finding.

One more witness, a resident of Detroit, remains to be heard. This witness, located by the defendant's mother, Mrs. Rita Scott, of Cleveland, will testify Russell was a narcotic addict.

Prosecutors and Defense Attorney William Scott Stewart will then begin their arguments. It is believed the jury will have the case sometime tonight.

Four alienists testified yesterday Scott is a victim of paranoid dementia and suffers persecutory delusions. One of the defense alienists was a woman, Dr. Rosalie M. La Dova.

Russell's brother, Robert Scott, who helped stage the hold-up in which Maurer was killed and escaped following the shooting, is now in jail awaiting trial for the same murder.

DRY 'WAR CHEST' QUIZ CALLED

Senate Committee Calls for Financial Records.

WASHINGTON, June 26.—A sweeping investigation of the $35,000,000 "war chest" used by the Anti-Saloon league of America to write prohibition into the constitution was assured today when the senate "slush fund" committee called for the league's financial records for every year since 1917.

The request was made of Wayne B. Wheeler, general counsel of the league, by Senator Reed, (D.), of Missouri, chairman. The records, which the committee will examine, include all contributions, subscriptions, the payroll of the national organization and the campaign and educational expenditures for the last ten years.

"I want the financial records for every year since the league begun its national campaign to put the prohibition amendment in the constitution," said Reed.

Wheeler agreed to furnish the documents.

When Wheeler requested that the league be permitted to produce certified copies of the record instead of bringing the original books to Washington, the committee agreed to send an expert accountant to Westerville, Ohio, where he league's headquarers are located.

Wheeler requested that the names of contributors to the anti-saloon league be kept private but the committee immediately overruled him.

THE LEHIGH & New England road was leased to the Reading at a rental of more than a million a year for 999 years. In 999 years the railroad of today will be as much a transportation curiosity as the camel that carried the Queen of Sheba. In 99 years there will be no passenger travel on railroads, except for short distances. All other travel will be in the air, and cumbersome, wasteful carriages mounted on wheels will have disappeared.

N. M. Simms' Widow Succumbs in Dr. Larkins' Home.

Mrs. Mary Fickle Simms, 82, widow of Nathanial M. Simms, and resident of East Liverpool for approximately 60 years, died at the home of her daughter, Mrs. Clyde R. Larkins, 211 West Fifth street, at 6 o'clock last night after several months' illness of a complication of diseases.

Mrs. Simms, a daughter of Henry and Dorothy Fickle, was born at Cardington, October 15, 1844. She was married to Mr. Simms at Mt. Gilead April 3, 1866, when she moved to this city. She lived here until a few years ago when the family moved to Longmont, Colorado. Since the death of her husband, Mrs. Simms has been spending her time between Longmont and East Liverpool, living here with her daughter, Mrs. Larkins, and her son, S. W. Simms, West Eighth street.

on the eighth. He could have played safe by using an iron. The Toledoan lofted an excellent shot from the rough to the cup and stymied Wells who was short. The ex-champ conceded the hole.

Their Cards.

Wells, however, regained the hole in the ninth when Campbell shot to the left back of a bunker. Campbell overshot the cup and conceded the hole.

The cards:

Wells, out	545	445	563	—41
Campbell, out	553	345	555	—40

Campbell increased his lead over Wells to two up at the end of the 18th hole.

The cards follow:

Wells, in	436	524	634	—37
Campbell, in	355	624	526	—38

Wells made a three on the 11th hole, which is 470 yards. On the 14th hole, which is 145 yards, both Wells and Campbell made it in two strokes.

Bobby Jones Sails.

SOUTHAMPTON, England, June 26.—"I will probably do a jig all the way across the Atlantic," said Bobby Jones, British open golf champion, today when he boarded the S. S. Aquitania here, lugging the huge championship cup with him.

"Life seems most rosy to me just now, but I haven't had time to give vent to my excitement."

Eight Reasons Cited

(Continued from Page One)

after his second trial. The bond was posted and Anderson freed.

Eight causes as to why a new trial should be granted are set forth in the motion. They are:

"First—The court erred in rejecting evidence offered by the plaintiff in error.

"Second—The court erred in admitting evidence over the objection of the plaintiff in error.

"Third—The court erred in refusing to permit the jury to inspect and examine during the trial the automatic gun introduced by the state as an exhibit.

"Fourth — The court erred in his charge to the jury.

"Fifth—The court erred in refusing to charge the jury as requesting in writing by the plaintiff in error.

"Sixth — The verdict was clearly and manifestly against the weight of the evidence.

"Seventh—The court erred in refusing to permit the jury to inspect during argument of counsel the automatic gun introduced as an exhibit by the state.

"Eighth—The verdict was rendered for the state of Ohio but it should have been rendered in favor of the plaintiff in error."

Anderson's last conviction occurred June 3, after the jury had taken 10 ballots. Judge Irving Carpenter, of Norwalk, who presided at Anderson's trial, sentenced him to from four years and eight months to 20 years in the penitentiary, but granted a stay of execution to permit the defendant to carry his case to the court of appeals.

Anderson served four months of the first sentence, five to 20 years, before he was granted a second trial.

AIMEE SEMPLE M'PHERSON OFF TO CALIFORNIA

Woman Evangelist Leaves Douglas, Arizona.

SHE IS GUARDED

Building Inspector Says He Saw Her in Tucson.

LOS ANGELES, Cal., June 26.—Aimee Semple McPherson, famous evangelist, who disappeared in the surf at Ocean Park so mysteriously May 18, and who was found in Agua Prieta, Mexico, was on the way home from Douglas, Arizona, today. She was accompanied by her mother, Mrs. Minnie Kennedy, her two children, Rolf and Roberta, and a group of newspaper men. Eight special armed agents were along as gurds.

The noted evangelist's train left Douglas at 9:16 o'clock last night and was scheduled to reach here about 3 o'clock this afternoon. Several hundred persons bid Mrs. McPherson farewell at the Douglas station.

Avoid Public Demonstration.

Plans were being made to take the noted evangelist from the train at some point outside the city in order to avoid a huge public demonstration. At the Angelus Temple, Mrs. McPherson's church, elaborate plans were under way, however, for what promised to eclipse any welcome ever given an arrival in Los Angeles.

Arrangements have been made to keep strangers out of the McPherson coach, it was said. The guards who are accompanying the party were placed on the train following rumors that mysterious death threats had been received by both the evangelist and her mother.

Probe Kidnaping Story.

Meanwhile Arizona officials continued an exhaustive probe of Mrs. McPherson's story of being kidnaped and held a prisoner in Mexico for $500,000 ransom. They were spurred on by a $500 reward offered by Mrs. McPherson for the finding of the shack in which she was held capitive and by a $10,000 reward offered by the Los Angeles Examiner for the arrest and conviction of the abductors of Mrs. McPherson.

After long hours of futile search Douglas police late last night reported that a cabin had been sighted which might be the one in which Mrs. McPherson says she was held captive by the kidnapers. The cabin was discovered by a posse, police said, headed by Constable O. A. Ash. The posse was said to have been confident of finding clews which may lead them to the abductors. The trail was resumed at dawn today according to reports.

Fail To Find Shack.

Previously experienced border rangers had declared that no such shack as the one she described by Mrs. McPherson existed within a radius of 50 miles of Douglas.

"I will be in the pulpit at Angelus Temple Sunday," Mrs. McPherson announced in a message received here. She is said to be working upon the sermon she expects to preach Sunday which she stated will be a "Resurrection sermon" in which she will tell "how the Lord preserved me for my people."

Tucson Man's Statement.

ON BOARD THE GOLDEN STATE LIMITED, Enroute to Los Angeles, June 26.—Aimee Semple McPherson was in Tucson, Arizona, weeks ago, according to B. F. Greenwood, building inspcetor of Tucson, who boarded the train at Tucson early today and pointed out the noted evangelist as the woman he saw.

"If it wasn't you it was your twin sister," said Greenwood.

"You realize," said Mrs. McPherson, "that you are making a very grave statement."

"I do," said Greenwood.

Captain of Detectives Herman Cline, of Los Angeles, also spoke to Greenwood and told him of the gravity of the statement he made. After a short pause, Greenwood said: "If it was not you I saw it was your twin sister."

Woman Visibly Affected.

Greenwood said he saw Mrs. McPherson on the Tucson street three weeks ago. He said that the woman he saw had auburn hair, but he identified her more by the eyes than anything else, he said.

French Youth Sing 'Hail, Hail' At St. Nazaire Celebration

Marching Song of A. E. F. Echoes Through Streets of Seaport at Dedication of Mrs. Harry Payne Whitney War Memorial.

ST. NAZAIRE, France, June 26.—"Hail, Hail, the Gang's All Here . . ." The raucous strains and verile words of this marching son of the A. E. F. again echoed through the winding crooked streets of this old French port again today.

It was not the voices of husky, basso profundo doughboys, sludging down the muddy hillside of St. Nazaire, that sang the song today. It was the voices of French youth, who as children five years ago learned to sing this song as a prelude to the plaintive appeal, "pennece pour moi."

Many French children of this town grew up to believe that "Hail, Hail, the Gang's All Here," was the national anthem of the Americans, and St. Nazaire was American again for the day.

Dignified ceremonies were carried out for the dedication of the Mrs. Harry Payne Whitney war memorial presented to France, but the fine words spoken at the memorial dedication exercises were no more earnest in their tribute than the song of the street gamins, who rejoiced in memories of those thousands and thousands of khaki-clad Americans who went trudging the misty, miry streets of St. Nazaire in the war days.

Ablaze With American Flags.

The old town was ablaze with American flags, intertwined with the French tri-color.

Eight American warships lay in the port where bedazelled camouflaged transports used to anchor. Dignitaries came down from Paris, and high military and naval officers in their brilliant uniforms darhed here and there in high powered cars. The blue jacketed and white-capped gobs from the American warships fraternized with the red-pom-pommed marines of the French warships.

The celebration was in commemoration of the landing of the first American contingent of the A. E. F., and Ambassador Herrick took occasion to make a speech, dedicating the war memorial, to deny charges of American materialism.

"We recognize that we probably have made many mistakes, but we alone seem to have suffered from them,' said the ambassador. "We look other people frankly in the eye and are proud in the knowledge of always having treated other nations justly and we are firmly resolved to continue to act in the same way in the future."

REPORTS FROM STOCK MARKET

NEW YORK, June 26.—Industrial stocks price were steady in an unusually dull and featureless half-session of the market today. Short covering in the motor stocks accounted for a few fractional gains, while tobacco stocks and a few of the specialities exhibited a stronger tone. The bulk of steel, oil and railroad shares did not fluctuate more than a small fraction from Friday's closing prices.

The professionals sold stocks of the mercantile companies which operate largely in the farming districts on the pretext that the failure of the farm legislation at Washington would mean a decline in the purchasing power of the great agricultural districts. The movement was without special effect on the market as a whole, and only slight declines were recorded in the stocks under pressure.

Brokers reported a good inquiry for the investment rails, most of which reached fractionally higher price levels in restricted trading. Chesapeake and Ohio continued to occupy the center of the stage, though New York Central and Atchison were also in demand. Both the traffic and earnings reports were favorable. Tobacco stocks and baking stocks sold higher.

BANDIT SHOOTS GARAGE WORKER

Cleveland Man Near Death After Fight With Robber.

CLEVELAND, June 26.—Bradford C. Maxon, 25, night cashier of the Hotel Winton garage, was in Lakeside hospital, today, at the point of death, as the result of being shot below the heart early this morning when he resisted one of two gunmen who sought to rob him in the garage office.

The robbers pulled up in front of the garage in a car and caught Maxon alone in the office. One of the men pressed a gun against Maxon's side and commanded him to surrender the receipts in the safe.

Instead of complying, Maxon struck at the hold-up man and the robber shot at him twice. One bullet struck Maxon below the heart, inflicting a probably fatal wound, and the other hit him in the neck.

The bandits escaped without any loot. There were several hundred dollars in the safe, police said.

A few hours before the shooting two masked men held up Sam M. Deutsch of the Deutsch & Rosengarten Drug company, as he drove into his garage at home and robbed him of $5 cash and jewelry valued at $1,400.

HOLD TWO MEN FOR ATTACK ON PRETTY GIRL

Two Society Leaders are Prisoners in Montreal.

"SPEEDING" COUNT

Actress Names New Yorkers as "Gas Hawks."

MONTREAL, Quebec, June 26.—Two officials from Westchester county, New York, were on their way here today to confront Philip Elliott and Richard Thorne, arrested here as the youths suspected of attacking Violet Anderson, pretty 20-year show girl, formerly of Cleveland, O., after she was taken on an automobile ride on a lonely road out from New York city.

This information came today to the authorities who are holding the alleged belt buckle entertainers on a technical charge of "speeding."

Miss Anderson told a grand jury at White Plains, N. Y., this week that the two men under arrest had asked her to go on an automobile ride after they had dinner at an inn; that she went, that they drove her to a lonely spot near Harrison, N. Y., took her out of the car, stripped her of her clothing and beat her with their belts "until the blood ran."

If the youths in custody here are identified as the assailants of Miss Anderson they will fight extradition, it was said. Both are said to be prominent in New York and Palm Beach social circles.

The young men were arrested yesterday after arriving here June 16 in a green sedan and making a decided impression on Montreal society. They have been entertained at the smartest golf clubs and won attention as two of the best dressed young men who have arrived here from the states for some time. The consequent shock to society, and especially the prominent golfer who introduced them everywhere, was great.

Their arrest was brought about by the suspicion of one of their newly found friends here who thought they were using a stolen car owing to their "nervousness." Detectives were put on their trail for three days and their detention followed.

The youths face sentences of 25 years each should they be convicted in New York state for the offenses with which they are charged.

Police said they found clippings in their possession relating to the attack on Miss Anderson.

Welding Theory Changing.

As a result of experimental work with atoms of hydrogen the theory of welding may be revolutionized. The idea behind the experiments is to pass the hydrogen atoms through an electric arc which produces a flame vastly hotter than the acetylene torch heretofore principally used for welding. By getting this heat welding of ordinary materials will be possible it is said, that will make the welded portions as strong as one original piece. If the experiments are developed commercially it may mean the passing of riveting to a large extent.

"My face was so badly broken out with pimples that it was actually disfigured. They first started with a few blackheads on the sides of my face, and festered. The trouble lasted about three years.

Premier Circus May Purchase Winter Home At Marblehead, Mass.

MARBLEHEAD, Mass.—This historic old town may become the winter home of a circus.

Negotiations have been made by Barnum & Bailey circus authorities for the purchase of the 700-acre Sorosis farm on Leyfayette street.

The circus made a stop on the Sorosis grounds and officials were so impressed with its possibilities as a winter home, that an offer was made for the purchase of the property.

The circus makes Bridgeport, Conn., its winter headquarters, but has outgrown its quarters there, it was said.

Vaudeville Bill and DeLuxe Films at Ceramic Theatre

Fourth Street Playhouse Announces New Summer Policy—Orchestra Music and Reduced Prices for Matinees.

Marking a decided change in policy, Manager William Tallman today announced that high class vaudeville, featuring metropolitan attractions, will be presented in addition to de luxe motion picture offerings at the Ceramic theatre during the summer.

Commencing with Monday, when reduced matinee prices—10 cents for children and 25 cents for adults—will be in effect, stellar vaudeville acts will be staged. Orchestra music also will be featured at the matinees as well as the evening shows.

Appearing in connection with all-star screen program during the first three days of the week will be Ray Alvino, with Harry Fausette and Bebe Chalmers, and his original Minstrel Boys, direct from Eddie Leonard's famous minstrel show, "Oh, Didn't It Rain."

Speaking of this offering, a Morgantown, W. Va., newspaper says:

"Excellent dance numbers by Harry Fausette and novelty banjo features by one of the soloists, are the outstanding hits of the program offered as the stage attraction at the Metropolitan this half of the week, by "Ray Alvino and Boys." Banjo and saxophone music that has seldom been equaled here are presented by the black face boys who know the selections that please. Monday's audiences gave the musicians enthusiastic recalls, to which they generously responded.

"To say that Harry Fausette's dancing is fine is putting it mildly. This eccentric hotfooter interprets all of the vocal numbers, the banjo and saxophone music and improvises to some extent. The group has been associated with Eddie Leonard's Minstrels this season, and their stage setting includes an artistic drop and pretty lighting.

"Bebe Chalmers, the pretty girl with the band, introduces a Charleston which is finished by the inimitable Fausette in his characteristic manner.

"The soloist's banjo duet on one instrument and his playing of an air and accompaniment with one hand are interesting novelties."

In addition to the vaudeville offering, an attractive motion picture booking has been engaged. Heading the screen offering is Pola Negri in a truly American story with a Palm Beach setting, "Good and Naughty." Al St. John is the star in a Mermaid comedy, "Fire Away," while Felix, the Cat sets off the program.

During the last days of the week, Basil Fomeen's Royal Accordian Ensemble, another stellar vaudeville feature, will present a worth while musical and dancing act in connection with Richard Dix's latest film success, "Let's Get Married." Nita Rosso, known as the whirlwind dancer, and Wanda Goll, famous radio singer, are members of the ensemble.

The vaudeville attractions to be presented by Manager Tallman are engaged through an agency that books all features for the Million Dollar Grand theatre at Pittsburgh.

Dr. C. H. Smith Will Speak Sunday Night In Cafeteria Hall

A lecture on the subject, "A Standard for the People," will be delivered by Dr. C. H. Smith, of Pittsburgh, at the Ceramic cafeteria auditorium, West Fifth street, at 7:30 o'clock Sunday evening.

The speaker will point out the need for a common standard, a common rallying center, around which people can gather and work for peace and for all that is desirable in the relationship of man with man. He asserts that such a standard is not unattainable; that on the contrary it is right within reach and may be readily understood and appreciated by all.

No collection will be taken at the lecture and all seats are free.

ed sending delegates. The senate debated the matter at length, and the house delayed the appropriation bill for ending delegates. Finally the president was authorized to send them, but they reached Panama City after the close of the conference.

This first Pan American congress drew up treaties of perpetual union, league, and confederation between the four countries which took part, but these were never ratified except in part by Colombia. Even Peru would not ratify, and Bolivar was much disappointed. Mexico and Guatemala refused to ratify, and the future meetings called for by the congress was not held. Thus the dream of the Liberator was apparently wrecked, and yet the years to come were to justify his whole vision of a great series of free republics, generally harmonies, covering the western hemisphere.

A great number and variety of Pan American gatherings have been held in the subsequent 100 years. Discussion is frequently heard at present of an American league of nations, and the leaders of thought in all walks of life, as recently those in journalism and soon those of medicine, foregather for international conferences and congresses.

A statue of Bolivar, the Liberator, was unveiled at Panama on June 22, the centennial of the meeting of his first congress of the Americas. He had prophesied the building of a canal such as now connects the oceans at the place he selected for the congress, and had foreseen many of the steps which have taken place in the development of the countries and peoples for whom he fought, and who in his lifetime frequently rejected and exiled or imprisoned him.

Now - for America
a revolutionary European-type
high-speed Light Car

This New Car Offers:
30 miles on a gallon of gasoline
55 miles an hour—5 to 30 miles in 13 seconds
4-wheel brakes—stops in 51 feet from 40 miles an hour
Turns in 34-foot circle—easiest car in America to park
5 feet 8 inches high—lower gravity center—greater safety
European-type body—more inside room than any other light car

A three-minute study of these remarkable facts may save you from buying an obsolete automobile

THIS is the announcement of a revolutionary new-type car, different from anything you have ever known before.

A car that combines the advanced engineering practice of Europe with new and improved standards of American performance.

This new car has a low, European-type body. With height and length in true symmetrical proportion.

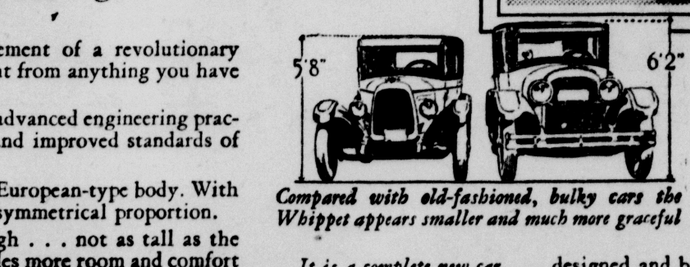

It is 5 feet 8 inches high . . . not as tall as the average man. Yet it provides more room and comfort than you've ever found in any automobile of this class before.

It has a high-torque, 31 horsepower motor of small bore and long stroke—the same engineering principle used in the fastest racing cars of America and Europe.

It turns in a 34-foot circle . . . that's less than the width of an average city street. You can park in 14 feet . . . which is much less than the space required for the ordinary car.

4-wheel brakes are an integral part of this new car's chassis design . . . a necessity which light car owners have not heretofore enjoyed. Measured tests show that it will stop in 51 feet from a speed of 40 miles an hour.

Its center of gravity is extremely low, with ample road clearance . . . thus giving a sense of security you have never found in any light car. Something you actually feel when you drive this car.

11-inch 4-wheel brakes enable this car to stop in 51 feet from a speed of 40 miles per hour

Two engineering ideals combined

The Overland Whippet represents a combination of the most advanced European and American engineering thought.

Compared with old-fashioned, bulky cars the Whippet appears smaller and much more graceful

It is a complete new car . . . designed and built as a unit . . . not an old-fashioned reconstructed chassis.

For over three years, Willys-Overland engineers in Europe and America have been developing it. Over 360,000 miles of road tests proved the practical advantages of this car before it was released for production.

The distinctive body lines of the Overland Whippet frankly resemble the smartest automobiles of America and Continental Europe. Stand in front of this car and you can imagine yourself on the boulevards of France.

Low-swung . . . rakish . . . graceful as a whippet . . . that's the only way to describe it.

Complete symmetry of design has been achieved with compact external dimensions.

Compared with contemporary big, bulky cars the Overland Whippet appears smarter and much more graceful. That's because height and length are in true artistic proportion.

In the Overland Whippet you have the feeling of riding closer to the ground . . . with the resultant sense of solidity and absence of that sidesway so noticeable in the conventional type of car. That high-up-in-the-air feeling is gone . . . here is a new kind of riding comfort. Step into this car and you will be surprised to find so much spacious room.

You can compare the Overland Whippet with all other American light cars on the basis of price alone. But from the standpoint of engineering, performance, comfort and quality, it has established an entirely new criterion by which all other light cars must be judged.

The Overland Whippet is furnished in three body styles . . . Sedan, Touring and Coupe.

See this new-type car

You have never seen a car like this before.

With the introduction of the Overland Whippet, it is not sound judgment today to consider the purchase of a less modern car.

A new trend of automobile design is dawning in America. Other light cars of this design will follow this one.

But today Overland . . . and Overland alone . . . offers you these unique engineering attainments.

In fairness to yourself, see this wonderful new-type car.

LAUGHLIN DOWNS TURK-NASH; TIES CHESTER FOR LEAGUE LEAD

Overcomes Four-Run Lead to Cop Contest

Three Hits, Sacrifice, Two Passes and Stolen Base Allow West Virginians to Come From Behind in Next to Last Frame.

WITH victory almost within their grasp, as a result of a 4 to 0 lead they had held for five innings, Turk-Nash faltered in the sixth period of yesterday's City Industrial league contest on Patterson field with Laughlin and the latter club negotiated two singles, a double, a sacrifice, two passes and a stolen base, which netted them six runs and the game. The final score was 6 to 4.

Though Turk-Nash batted twice after the debacle they failed to score. In both interims three men got on but on both occasions they failed to go around.

Threaten in Seventh.

Laughlin, in the first of the seventh, threatened to add to their commanding lead when Hunselman led off with a walk. Bucher was sent in to supersede Howell. Digman got on as D. Morgan booted his drive and the bases were filled as Parsons also drew a pass. But Bucher held on tenaciously and came out of the hole by retiring the next three men, Crawford flying to A. Bayley, Finley fanning and Herbert going out, J. Watson to R. Pollock.

Deshler, batting for Bucher in the final half of the seventh, fanned. E. Bayley did likewise. The crowd began to file out but McConnell injected a new thrill with a single and A. Bayley walked. Schneidmiller, however, struck out.

Digman, starting badly, finished strong. As a result of the victory Laughlin ties Chester at the top of the circuit.

McConnell singled sharply to left following E. Bayley's fouling out to Babb and scored on A. Bayley's double to middle. Schneidmiller was safe on Finley's low throw to Babb and stole second. Both runners scored on R. Pollock's double to middle after D. Morgan had gone out, Finley to Babb. E. Mundy doubled to deep left, scoring R. Pollock. J. Watson was retired, Digman to Babb.

Hunselman Starts Rally.

Hunselman walked in the sixth. Digman singled through short. Parsons doubled to deep right along the line and both runners scored. As the players stood around Parsons stole third. Crawford walked. Finley singled to left and Parson came in. Herbert sacrificed, D. Morgan to R. Pollock. Aufderheide drove the ball to Howell, who elected to try to get Crawford between third and home. In the zig-zagging that followed E. Bayley rushed in to assist, procured the ball, and finally decided to run down the fleetfooted gardner. In the short race that ensued Crawford, untouched, crossed the plate. Bayley threw the ball as he found himself distanced which got by Schneidmiller and Finley also scored.

Before E. Bayley retrieved the ball, rushing almost to the grand stand for it, Aufderheide, whose innocent blow of but a few feet that caused all the Nash-Turk trouble, reached thir base from where he immediately scored the victor's sixth run when Babb sent the ball down the third base line which Howell, fielding, assisted to R. Pollock. D. Morgan then threw out Babb at first base.

VICTORY MOTOR DEFEATS K. T. K.

VICTORY MOTOR, playing fine ball, defeated K. T. K. at Columbian park in a City Industrial league contest last evening 4 to 3.

Stoffel, starting to pitch for the potters, was found for three runs in the initial inning of play when two singles, two walks, an error and a sacrifice hit, netted the trio of tallies.

In the fourth a triple and a double gave the visitors another. Jennings then replaced Stoffel and held Mundy and his men scoreless during the remainder of the game.

Baker twirled well for the Victors, allowing but six safe bingles.

Wilson, tripling in the second, scored on Pennybaker's three bagger.

Rarden, singling and Lysle walking in the fourth, scored on a single by McShane over second.

Pennebaker, traded to K. T. K. for Pitcher Bucher, played his initial game at short for the potters. He had a perfect batting mark for the day, while McShane swatted .667 with two hits in three times up.

C. Strobel, playing for the first time with Victory Motor, contributed a triple and registered three putouts.

Postpone Annual Fish-Game Outing At Guilford Park

The annual field day of the Columbiana County Fish and Game Protective association, at Guilford State park, has been postponed from July 28 to August 4, according to announcement by officers of the organization.

The field committee has practically completed arrangements for the meet.

Instead of the merchandise given heretofore as prizes, it was decided to award gold, silver and bronze medals and for the trap shoot and coon hunt, silver trophy cups will be given the winners and medals to those who place.

State Representative Ralph W. Emmons of East Rochester, father of the park bill, will be chairman of the day. The chief speaker will be Director of Agriculture C. V. Truax, representing Gov. Vic. Donahey who can not be present.

D. O. Thompson, chief of the division of fish and game, will not be able to attend, and his place will be taken by I. S. Myers of Akron, prominent sportsman, who, with Truax, spoke last year.

Congressman B. Frank Murphy of Steubenville, is planing to be present, if possible and will address the crowd following Truax's talk.

RUSTY CALLOW TO COACH PENN

By DAVIS J. WALSH.

NEW YORK, June 26.—Washington university, the hub of modern oarsmanship, may be about to make the supreme sacrifice once more that the field of eastern rowing may prosper. Four years ago, it gave up its first coaching genius when Ed Leader came on to Yale to develop an unbeaten system, which reached its climax yesterday with Yale's record-breaking victory over Harvard in 20:14 2-5.

Now, they say, the Huskies will be forced to give up another great coach, it being understood today that "Rusty" Callow will be in charge of rowing at the University of Pennsylvania when the season of 1927 rolls around.

As Good as Signed.

Pennsylvania, it was declared, has as good as signed the man who has resisted all eastern blandishments for several years and who, not more than a few weeks ago, sniffed a disdainful sniff at an offer from Harvard. At that time, it looked as though Callow would remain with Washington until death did them part.

But the latest angle on the situation is that "Rusty" has listened to a lot of slick city talk from Philadelphia, supplemented by the insinuating rustle peculiar to the restless banknote. They say he virtually has capitulated and be made no later than shortly after that announcement to this effect may the Poughkeepsie race on Monday.

Battles Toledoan In 36-Hole Final Today

Reaches Windup Match After Thrilling Clash With Youthful Dave Ogilvie, Which Ends at 19th; Hasmann Eliminated After Ragged Game.

By BEN STERN.

WESTWOOD COUNTRY CLUB, Cleveland, June 26.—Never was the old adage, "You Can't Down a Good Man," given better proof than in the case of the perennial Joe Wells, East Liverpool exponent of "Ye Ancient Scottish Game of Golf," who every year must needs administer a lesson to ambitious youngsters.

Joe, four times finalist, and twice champion, will meet Parker Campbell, blond, handsome Toledoan, with the consistent gallery of the fair sex, today in the 36-hole finals for the Ohio state amateur golf title.

Campbell Eliminates Hasmann.

The Toledoan, in order to get in the finals, eliminated Eddie Hasmann, Cleveland, present title holder, and finalist almost as many times as Wells.

In fact, the history of the Ohio tourneys for the past several years has been "Hasmann bows to Wells," or "Wells bows to Hasmann."

Campbell was semi-finalist last year at Akron. But that was the farthest along he ever got.

The fact that Hasmann has been off form throughout the matches and decidedly off form yesterday accounts for Campbell winning five and four.

Hasmann's Game Ragged.

Hasmann's wood shots were ragged, and when he should have been on the sixth fairway his ball was over near the seventh. His iron work was erratic, missing two two-foot putts, where the drop should have been as easy as dropping a tip into a bell boy's hand. There did not seem to be any chance to lose.

The real contest of the day was between Wells and David Ogilvie, Jr., long, lean and rangy, son of a Cleveland pro, and in our opinion one of the very, very best entered in the tourney.

Pick Wells as Favorite.

In fact, the lesser experience and his youth was all that kept Dave from winning.

It took the veteran 19 holes to win the match, but not before Ogilvie laid a half stymie on the lip of the nineteenth cup that cost Wells much effort to get about for a birdie 4.

Wells is picked as the favorite to win today.

INSIDE GOLF

By CHESTER HORTON,
Maker of 51 Golf Champions.
"Golf's most successful teacher," says "Chick" Evans.

Play the midiron as you do the driver. If you are hooking too much watch the position of the ball off your left foot. Don't stand too open, because you hit down and fall away and around with it. You must hit the ball in the center of the club, and then your hands will tighten up unconsciously on the stroke. Do not swing so rounded. Swing more uprightly. Roll the wrists, too, if you want success. Try to stop the left hand, at the ball, and force the right through, the right wrist rolling over on top of the left. Take up all your clubs in the same manner, as all good golfers should. Here we see the driver going up with the left arm straight, the right elbow close to the body. This position of the arms operates to draw the body around into the finest pivot, and prevents waisting. The straight left arm makes the pivot automatic, as it should be.

Jones Gets Rousing Farewell As He Departs From London

LONDON, June 26—American amateur and professional golfers celebrated their triumph over the British linksmen at a farewell breakfast in the Hotal Savoy this morning. Immediately after the feast Bobby Jones, winner of the British open championship, and several others left on the boat train to go aboard the Aquitania which sailed today for the United States.

Walter Hagen put the sentiment of the assembled golfers into words when he delivered a lengthy toast to Jones, concluding with the words:

"We have to beat Jones if we are going to amount to anything in golf."

The celebration was featured by the entrance of the glee club of Emory college which paused before Jones and sang "Dixie."

Bobby Jones was the center of an enthusiastic crowd that gathered on the platform at Waterloo to see him off on the Aquitania boat-train. He appeared slightly shy and nervous at the fuss that was being made over him.

The British press today generally acclim Jones as a mster golfer.

"Jones is the world's best golfer," said the Daily News.

The Westminister Gazette voices a rather pathetic note, when it reviews the American golf victories in England in the past two months and states:

"There is nothing to be done but to congratulate them, and call attention once more to the hopelessness of the effort to keep pace with a people who take their games as seriously as they take their business."

FIRE MARSHAL GIVES WARNING

State Official Aims to Reduce Casualties on Fourth.

The "safe and sane" Fourth of July idea is becoming predominant in this country and it has resulted the last few years in a marked reduction in fires and casualties, which were the sobering aftermath of the old fashioned firecracking Fourth, according to State Fire Marshal C. L. Topping.

"However, there still is plenty of room for improvement," said the fire marshal. "Fireworks continue to add heavily to the fire loss of the nation and the killing and maiming keeps on in a modified way. This is the thing I am the most anxious to have prevented in West Virginia next month—the injury to children from handling the various explosive devices. All the pleasure to be derived from burning gunpowder on the Fourth would not compensate for the death or injury of one child.

"I note by the papers that fireworks are to feature a number of Independence day celebrations in the state, and no doubt this vivid expression of patriotic fervor will always retain its popularity on the Fourth and on other occasions of heightened enthusiasm. There is small danger from fireworks if they are in experienced hands. It is the firecrackers, the toy pistols with caps and blank cartridges that have caused hundreds of cases of lockjaw; the torpedoes and the other devices containing dangerous poisons that do the damage to life and property when promiscuously handled.

"The National Fire Protection association, which is devoted to establishing proper safeguards against loss of life and property by fire, is deeply interested in the 'safe and sane' Fourth of July movement and is urging its members to secure the adoption of suitable ordinances prohibiting the promiscuous use of fireworks in Independence day celebrations and to secure proper enforcement of existing legislation. I trust this request from an eminent source will be duly regarded."

The hangman has now strangled her. The landlady and British justice are revenged.

IT IS SAID, perhaps without authority, that Mussolini plans to marry his daughter to the Italian crown prince.

The daughter is a fine young Italian girl, with her father's powerful chin, and the Italian royal family would be strengthened by such a marriage, and it wouldn't be anything new.

Mussolini is no more of an upstart than Bonaparte was, and the Emperor of Austria, proud head of the Ancient Hapsburgs, was glad to marry his daughter to Bonaparte as his second wife.

NEWS OF FINANCE, cheerful as ever yesterday. Freight car loadings exceeded all records for five years, passing the million mark four weeks running. Those tearful securities, the railroad stocks, seem to be doing well.

New Jersey Central, which already paid 8 per cent. to stockholders, added an extra $2 to yesterday's quarterly dividend, making $4 for three months, a rate of 16 per cent a year.

GIRL IS KILLED AND FIVE OTHER PERSONS INJURED IN AUTO CRASH

Miss Myrtle Whitten, 17, New Holland, Dies When Car Hits Parked Machine Near Cedarville.

CEDARVILLE, O., June 26.—A girl was killed and five persons were injured when the automobile in which they were riding crashed into another machine standing along the Cedarville-Jameston pike, two miles south of here, early today.

Miss Myrtle Whitten, 17 years old, New Holland, Ohio, was fatally injured in the crash.

Miss Whitten was a passenger in the motor car which was driven by Guy Noble, Springfield. Mr. and Mrs. Kendall, Springfield, and their two-year-old and one-month-old children also were occupants. All were injured.

Noble's automobile crashed into a motor car owned by a man named Cavanaugh, Cedarville, which was standing in front of a farm house at the spot where the accident occurred.

Cavanaugh's machine was standing near a sharp curve on the pike. Noble is believed to have misjudged the distance between the parked machine and the curve and to have driven his machine head-on into the other car.

Miss Whitten was hurled through the windshield, receiving a punctured jugular vein and a severed artery. She died within five minutes after the crash.

The two-year-old Kendall baby was tossed from the automobile and was later found pinned beneath one of the front wheels. He was slightly injured.

Donald Morrow, 19, Wellsville, a helper, who was internally injured is recovering at the hospital.

The accident occurred when the five-ton truck, driven by Stype, enroute to New Cumberland to make deliveries, struck a rut in the road. 150 PERSONS ABOARD EXPRESS SHAKEN UP BY LOCOMOTIVE EXPLOSION

Boiler of Engine Drawing Freight Train Over Main Line of New York, New Haven and Hartford Railroad Falls Onto Opposite Track and Hits "Cape Codder."

CRACK SUMMER TIME NIGHT FLYER IS DERAILED NEAR KINGSTON, R. I.

Blast Tears Hole 15 Feet Deep in Roadbed, Causing Locomotive and First Sleeper of Passenger Train to Topple on Their Sides and Yanks Two Other Cars From Rails.

KINGSTON, R. I., June 26.—Three trainmen were killed, two were seriously injured and 150 passengers were shaken up and bruised early today when the boiler of a locomotive drawing a New Bedford, Mass., to New London, Conn., freight train over the main line of the New York, New Haven and Hartford railroad exploded, fell onto the opposite track and wrecked the "Cape Codder," crack summer-time night express between New York and Hyannis, Mass.

The dead:

W. J. MOULTON, of Providence, R. I., engineer of the freight locomotive.

JOHN J. MULVANEY, of Providence, fireman aboard the freight locomotive.

GEORGE C. HATHAWAY, of Padanaram, Mass., head brakeman of the freight train.

The seriously injured:

CHARLES BENNETT, of New Haven, Conn., fireman of the express locomotive.

CHESTER FRAZIER, of New York, engineer of the express locomotive.

The explosion of the boiler tore a hole 15 feet deep in the roadbed, caused the locomotive and the first Pullman sleeper to topple on their sides and yanked two other Pullmans of the seven Pullman car train from the rails.

The explosion and wreck was the most unusual in the history of the railroad.

Engineer Frazier of the express train said he was making between 40 and 50 miles an hour on a clear track before dawn when he came abreast of the freight train. There was a sudden grinding of brakes on the freight and before Frazier could throw on his emergency brakes a dark mass loomed up in front of him. This was freight cars which had been thrown from the adjoining track by the sudden throwing on of the emergency brakes with the bursting of the locomotive boiler.

The explosion of the boiler ripped open the freight locomotive cab, sending the occupants in all direction.

There were 60 freight cars attached to the freight train locomotive.

Traffic was tied up on the main line for hours.

BEATTY OPENS FIGHT JULY 11

Democratic Candidate for Governor to Speak in Dayton.

J. C. B. Beatty, East Liverpool pottery jobber, will open his campaign for the Democratic gubernatorial nomination at the August 10 primaries in Memorial hall, Dayton, Sunday afternoon, July 11, he announced today.

Beatty, who was defeated two years ago by Gov. Donahey, made the announcement of his plans in telegrams sent to Dayton and other newspapers, in which he suggested July 4 or July 11 as the date. However, arrangements could not be made for the use of Memorial hall on July 4.

In his announcement, Beatty said: "The Savior saw no harm in getting the ox out of the pit on Sunday, therefore I am certain He will approve of my opening a campaign on Sunday for the purpose of bringing about the release of hundreds and thousands of martyrs that are unjustly imprisoned at this hour on account of the injustice of most damnable inhuman methods."

Beatty said he would be the only speaker at the Dayton meeting.

GIRL IS KILLED AND FIVE OTHER PERSONS INJURED IN AUTO CRASH

Miss Myrtle Whitten, 17, New Holland, Dies When Car Hits Parked Machine Near Cedarville.

CEDARVILLE, O., June 26.—A girl was killed and five persons were injured when the automobile in which they were riding crashed into another machine standing along the Cedarville-Jameston pike, two miles south of here, early today.

Miss Myrtle Whitten, 17 years old, New Holland, Ohio, was fatally injured in the crash.

Miss Whitten was a passenger in the motor car which was driven by Guy Noble, Springfield. Mr. and Mrs. Kendall, Springfield, and their two-year-old and one-month-old children also were occupants. All were injured.

Noble's automobile crashed into a motor car owned by a man named Cavanaugh, Cedarville, which was standing in front of a farm house at the spot where the accident occurred.

Cavanaugh's machine was standing near a sharp curve on the pike. Noble is believed to have misjudged the distance between the parked machine and the curve and to have driven his machine head-on into the other car.

Miss Whitten was hurled through the windshield, receiving a punctured jugular vein and a severed artery. She died within five minutes after the crash.

The two-year-old Kendall baby was tossed from the automobile and was later found pinned beneath one of the front wheels. He was slightly injured.

Donald Morrow, 19, Wellsville, a helper, who was internally injured is recovering at the hospital.

The accident occurred when the five-ton truck, driven by Stype, enroute to New Cumberland to make deliveries, struck a rut in the road. 150 PERSONS ABOARD EXPRESS SHAKEN UP BY LOCOMOTIVE EXPLOSION

Boiler of Engine Drawing Freight Train Over Main Line of New York, New Haven and Hartford Railroad Falls Onto Opposite Track and Hits "Cape Codder."

CRACK SUMMER TIME NIGHT FLYER IS DERAILED NEAR KINGSTON, R. I.

Blast Tears Hole 15 Feet Deep in Roadbed, Causing Locomotive and First Sleeper of Passenger Train to Topple on Their Sides and Yanks Two Other Cars From Rails.

KINGSTON, R. I., June 26.—Three trainmen were killed, two were seriously injured and 150 passengers were shaken up and bruised early today when the boiler of a locomotive drawing a New Bedford, Mass., to New London, Conn., freight train over the main line of the New York, New Haven and Hartford railroad exploded, fell onto the opposite track and wrecked the "Cape Codder," crack summer-time night express between New York and Hyannis, Mass.

The dead:

W. J. MOULTON, of Providence, R. I., engineer of the freight locomotive.

JOHN J. MULVANEY, of Providence, fireman aboard the freight locomotive.

GEORGE C. HATHAWAY, of Padanaram, Mass., head brakeman of the freight train.

The seriously injured:

CHARLES BENNETT, of New Haven, Conn., fireman of the express locomotive.

CHESTER FRAZIER, of New York, engineer of the express locomotive.

The explosion of the boiler tore a hole 15 feet deep in the roadbed, caused the locomotive and the first Pullman sleeper to topple on their sides and yanked two other Pullmans of the seven Pullman car train from the rails.

The explosion and wreck was the most unusual in the history of the railroad.

Engineer Frazier of the express train said he was making between 40 and 50 miles an hour on a clear track before dawn when he came abreast of the freight train. There was a sudden grinding of brakes on the freight and before Frazier could throw on his emergency brakes a dark mass loomed up in front of him. This was freight cars which had been thrown from the adjoining track by the sudden throwing on of the emergency brakes with the bursting of the locomotive boiler.

The explosion of the boiler ripped open the freight locomotive cab, sending the occupants in all direction.

There were 60 freight cars attached to the freight train locomotive.

Traffic was tied up on the main line for hours.

Democratic Candidate for Governor to Speak in Dayton.

J. C. B. Beatty, East Liverpool pottery jobber, will open his campaign for the Democratic gubernatorial nomination at the August 10 primaries in Memorial hall, Dayton, Sunday afternoon, July 11, he announced today.

Beatty, who was defeated two years ago by Gov. Donahey, made the announcement of his plans in telegrams sent to Dayton and other newspapers, in which he suggested July 4 or July 11 as the date. However, arrangements could not be made for the use of Memorial hall on July 4.

In his announcement, Beatty said: "The Savior saw no harm in getting the ox out of the pit on Sunday, therefore I am certain He will approve of my opening a campaign on Sunday for the purpose of bringing about the release of hundreds and thousands of martyrs that are unjustly imprisoned at this hour on account of the injustice of most damnable inhuman methods."

Beatty said he would be the only speaker at the Dayton meeting.

A STANDARD FOR THE PEOPLE

"millions now living will never die"

After six thousand years of effort man points proudly to our present-day civilization as the acme of his attainments.

A civilization stooping to brutalities too inhuman for savages, makes the standards of Christianity but empty and hollow professions.

From this hypocrisy there is a tearing away. A spirit of lawlessness flouts laws and customs with an abandon that does not stop to consider the consequences, so persistent are the attempts for release. But what new standards—social, political, and religious—are to succeed the present?

The Foolkiller

The foolkiller is abroad in the land. He works all the year, of course, but the summer is really his busy season. His aim is sure and fatal. There is only one way to avoid him: Don't be a fool.

To take only one instance out of a day's news, three girls and three boys set out in a little punt on the St. Mary's river the other day. One of the boys started to demonstrate how he won a Charleston contest. One of the six was rescued.

In the first place, six people are too many for a small boat. Three are enough for the average rowboat. In the second place, monkey-business in small boats is one of the foolkiller's most deadly weapons.

Why people should think it funny to rock small boats is one of the unsolved mysteries of human nature. It isn't funny to drown, or to come close to drowning and be rescued. Nor is it really funny to endanger the lives of one's friends.

It isn't really funny to venture out into water beyond one's depths when one cannot swim enough to have a generous margin of safety.

It isn't really funny to show how fast one can drive—and end in a hospital.

It isn't funny to hug the road just to be smart—and sideswipe oneself, one's friends and the strangers one meets down the hill and into the morgue.

There is something about the good old summer time which lets loose all the silly desire to show off that is latent in human nature.

The foolkiller is always waiting. But he doesn't bother quiet, sensible people much. The smart Alec is his chosen game.

Germany Pays

Germany made her payments during the past winter with difficulty, because of unemployment and business failures—but she paid.

Seymour Gilbert, the American agent-general whose job it is to collect and distribute German reparation money under the Dawes plan, pays Germany a sincere compliment. During the first nine months of the second year under that plan, ending June 30, he reports Germany paid more than any conquered nation before ever paid her victors, meeting all her obligations, and meeting them entirely out of her own resources.

It was not such a great sum judged by American standards, but it seems great for Germany, everything considered. It amounted to 821,000,000 gold marks, over $200,000,000. That sum is divided among 11 countries—Germany's war creditors—and the thing of particular interest in America is that our country gets part of it.

The American portion is small, only $7,000,000. Yet it is something to cheer about when America gets anything at all out of Germany, after all the billions the kaiser and his crowd forced this county to spend in making the seas safe for Americans and the world safe for—well, whatever it was that we made it safe for.

No More Skirts

The skirt is doomed, says Booth Tarkington, the novelist. "Fifty years from now the skirt, as an article of women's apparel, will have disappeared entirely."

This statement doesn't arouse the consternation it might have aroused a decade or two ago. We are not easily shocked any more. Besides, there is little left of the skirt now. It seems plainly evolving, or devolving, into nothing right before our eyes.

Tarkington says he expects to see the time when all women will regularly wear garments just about the same as man's. There is no reason, he thinks, why they shouldn't. It isn't a question of modesty, but of custom and fitness.

We guess we can stand it, if we must. Bloomers are not so bad, anyway, though they used oddly to shock us early in this revolutionary century. Or if it's to be trousers, that too probably doesn't matter much. We can get used to anything. They'll still be the same women.

X-Rays On Pictures

The X-ray is now being used to decide as to the genuineness of old oil paintings at Harvard university and elsewhere. The X-ray picture is checked up with the surface picture, and with the findings of the expert, and helps to make the final decision.

Next things anyone knows, somebody will be using X-rays to find whether there was or was not a worm in the wormholes in antique furniture. Then where will the antiquer be with his modern mechanical worm-hole maker?

Or will the antique fans love their loot all the more because they have been fooled?

New York's proposed curfew law, closing the cabarets at 3 a. m., should help out-of-town visitors to get up in time for a noon breakfast.

Anyway, if next winter is going to break all records for severity, this summer will be good preparation for it.

If congress really wants to help agriculture, it might benefit two great industries at once by buying up the used cars on the market and giving them to the farmers.

The Terrible Disadvantage of Not Being Able to Write—By Fontaine Fox

NEW YORK DAYBYDAY

By O. O. McINTYRE

NEW YORK, June 26.—Along the meandering mile of Broadway a "morning glory" is a black eye, because it is usually acquired in one of those dawn battles without which a night in a cafe is a total loss. Women receive the decoration as well as men.

They are so common that when there is the sudden flutey tinkle of broken glass from an overturned table some do not even turn around. A cafe fight is always amusing. It usually ends with the belligerents hugging each other and perhaps snapping into a waltz.

Now and then a young girl will emerge from the ladies' room with tumbled hair and disheveled dress and angry red scratches on her cheeks. She has replied forcibly to some cutting remark, and stands dramatically in a circle of admirers like an avenging goddess.

Broadway girls when properly sparked up do not permit an affront to go by with mere words. They fight it out. Sometimes they are coaxed out to the pavement by fearful managers, where they battle until a policeman arrives.

And Tenderloin police are shy of battling women, for often the participants turn on them, and then there is nothing left to do but take a scratching and call the wagon. Until a few years ago women never fought in respectable cafes. Only in sordid Bowery dives.

It may be the quality of hooch that makes Broadway carry a chip on its shoulder in early hours. A roue with a faded lady may overhear the telling of a Pullman car decameron at the next table and suddenly feels righteously insulted. And the battle is on.

A gentleman stares too long at a lady and she informs her escort. Another biff and crash. There used to exist a free masonry among nocturnal pleasure seekers, and if a patron waxed angry he was quickly calmed and buying a drink all around. Those days are gone.

I have often wondered just as Mayor Walker has what those early morning workers, who appear as the pearly mist gives way to dawn, think as they see neurotic New York going home to bed. They see fine clothes, jewels and other glitter and faces flushed with the rosy wine of revelry. It all appears so different and gay from the ordinary tedium of a humdrum day. And yet—

The other morning a group in evening clothes wearing paper mardi gras caps walked out of a cafe just as the sun showed a bloodshot red. They half staggered to a waiting car and one shouted: "Now for a little fresh air." They blazed away and a half hour later in Long Island there was a sickening impact and a rain of glass. Two were scarred for life. Another will never use his legs again.

It used to be a first page story now and then when some hiker would wander off and become lost in the Jersey marshes, to be found almost unconscious from mosquito bites. The Jersey skeeter was like the mother-in-law, a stock joke in vaudeville and comic weeklies. New Jersey went quietly about the task of exterminating the mosquito. Today they do not cause any more annoyance than they do in Gotham.

Along Ninth Avenue railroad tracks at night are many old kindling women who gather there just as the sandwich men collect in Bryant Park at nightfall. The kindling women go about with sacks gathering up odd bits of rubbish which they sell to junk dealers. They are unwashed and ragged and merely stand together like cattle in a rain. Seldom is conversation heard.

HASKIN'S LETTER

By FREDERIC J. HASKIN

Pan American Health Conference.

WASHINGTON, June 26.—The first Pan American Health conference has been called to meet in Washington on September 27 to 29 next, and thereby one more step has been taken toward cementing the nations of the New World into closer cooperation. Coming during the same year which saw the first Pan American Press conference, and which was also marked on June 22 by the celebration at Panama of the Centennial of the first Pan American congress of any sort ever held, the health gathering contributes to making 1926 the outstanding year to date in the development of relations among the governments and peoples of the Americas.

The United States Public Health service is sponsoring the health conference, and preparing the tentative program. Public health officials of 21 American republics are expected to participate. The topic of discussion will include prevention and treatment of certain wide-spread and radical diseases, such as leprosy, malaria, and hookworm, and quarantine conditions in various nations, public sanitation, and health laws and their administration.

The medical men of the western hemisphere have not been without contracts in the past, the Pan American Sanitary Bureau having held several meeting, and another convention of this bureau will be held in 1927 in Peru. The gathering at Washington this year will be in some ways preliminary to that meeting, and out of these medical discussions there is strong hope that certain uniform sanitary treaties will be adopted which will adequately regulate questions such as quarantine regulations, which affect commerce and travel between the nations of the New World.

The United States, through its early efforts in Cuba and later developments in Panama, has set the pace for preventive medicine in the tropical and semi-tropical countries of the two continents. The physicians of this country solved the yellow fever problem, and generally speaking taught the western world how to cope with malaria and other fevers and plagues, and while this work at one time threatened trouble because of our practical black-listing of certain seaports where sanitary regulations and conditions were dangerous, the whole group of American republics has come to cooperate with the United States and welcome our efforts.

That the experience of the last twenty-five or thirty years may be incorporated in international sanitation treaties, so that proper regulations may be administered without friction, is one hope of those interested in the health gathering planned for September at Washington.

Bolivar Congress Centennial.

With the newspapers of the Americas brought into close contact by the first Pan America Press Conference in April and the medical authorities coming together in September, there was also an important celebration at Panama City in June of the 100th anniversary of the "General Assembly of the American Republics," which was held in that city beginning June 22, 1826, and lasting until July 15 of that year. This gathering, often referred to as the Bolivar congress, was the first international gathering of nations of the New World, and hence the forerunner of all that has since developed in the relationships of the republics of North, South and Central America.

The congress of Bolivar seemed at the time a small and far from successful gathering, although time has justified every hope held out for it by its founder. General Simon Bolivar was then the president of Peru. He had fought for the liberation of that nation, of Colombia, of Venezulea, of Bolivia, and of other South American peoples from Spanish rule, and other wars with Spain were going on or threatened, but the freedom of the South and Central Doctrine had been promulgated three years earlier, and a few nations in Europe had recognized the new republics, but others refused to offend Spain by such recognition.

In 1824 Bolivar planned what he hoped would be a great congress of the republics of the New World. His plan was for a sort of league of nations of the New World, although he did not contemplate inviting the United States, which up to that date had pursued a careful policy of aloofness from all international efforts.

The invitations to the gathering at Panama in 1926 were accepted by Colombia, Guatemala, and Mexico, as well as Peru. Chile and the Argentine also expressed approval, but for various reasons never sent delegates. Brazil was then an empire, and while the Emperor approved the project, he did not send delegates because Brazil had been a Portuguese colony, and although it had won independence it remained neutral between Spain and her rebellious colonies.

Great Britain had recognized the republics, and she sent an official delegate who was instructed to meet with the "General Assembly of the American Republics," and be helpful where he could as an adviser. The Netherlands had not recognized the republics, but sent an unofficial delegate to express the sympathy of the king of the Netherlands.

Our Delegates Too Late.

Meanwhile the United States, while not first invited by Bolivar, was invited by Colombia, Guatemala and Mexico as part of their acceptance of the invitation of Peru. President John Quincy Adams, who as secretary of state had helped draft the Monroe Doctrine, desired to accept. He explained to congress that George Washington's famous warning against foreign entanglements referred to Europe and not to free republics in America, which had not existed in Washington's day. Henry Clay was secretary of state and he also approv-

THE SPIRIT OF '76 — WITH IMPROVEMENTS

A New York East Sider met a friend on Third avenue and told him he had quit the buttonhole making trade.

"I'm in the art business now," he said proudly—"such a fine business, too! Lot of money it it!"

"What do you mean—art business?" demanded his friend.

"Well," explained the East Sider. "I go by auction sales, and I buy pictures cheap; then I sell 'em high. Yesterday I bought a picture for twenty-five dollars and today I sold it for fifty."

"What was the subject?"

"It wasn't no subject at all," said the art collector—"it was a picture."

"Sure, I know," said the other. "But every picture has got to be a subject or it ain't a regular picture, you understand. Was this here picture a marine, or a landscape, or a still life, or a portrait—or what? What did it represent?"

"How should I know?" said the puzzled ex-buttonholer. "To me a picture is a picture. This here picture now didn't have no name. It was a picture of three fellows and one flag. One feller had a fife and one feller had a drum and one feller had a headache!"

The Foolkiller

The foolkiller is abroad in the land. He works all the year, of course, but the summer is really his busy season. His aim is sure and fatal. There is only one way to avoid him: Don't be a fool.

To take only one instance out of a day's news, three girls and three boys set out in a little punt on the St. Mary's river the other day. One of the boys started to demonstrate how he won a Charleston contest. One of the six was rescued.

In the first place, six people are too many for a small boat. Three are enough for the average rowboat. In the second place, monkey-business in small boats is one of the foolkiller's most deadly weapons.

Why people should think it funny to rock small boats is one of the unsolved mysteries of human nature. It isn't funny to drown, or to come close to drowning and be rescued. Nor is it really funny to endanger the lives of one's friends.

It isn't really funny to venture out into water beyond one's depths when one cannot swim enough to have a generous margin of safety.

It isn't really funny to show how fast one can drive—and end in a hospital.

It isn't funny to hug the road just to be smart—and sideswipe oneself, one's friends and the strangers one meets down the hill and into the morgue.

There is something about the good old summer time which lets loose all the silly desire to show off that is latent in human nature.

The foolkiller is always waiting. But he doesn't bother quiet, sensible people much. The smart Alec is his chosen game.

Germany Pays

Germany made her payments during the past winter with difficulty, because of unemployment and business failures—but she paid.

Seymour Gilbert, the American agent-general whose job it is to collect and distribute German reparation money under the Dawes plan, pays Germany a sincere compliment. During the first nine months of the second year under that plan, ending June 30, he reports Germany paid more than any conquered nation before ever paid her victors, meeting all her obligations, and meeting them entirely out of her own resources.

It was not such a great sum judged by American standards, but it seems great for Germany, everything considered. It amounted to 821,000,000 gold marks, over $200,000,000. That sum is divided among 11 countries—Germany's war creditors—and the thing of particular interest in America is that our country gets part of it.

The American portion is small, only $7,000,000. Yet it is something to cheer about when America gets anything at all out of Germany, after all the billions the kaiser and his crowd forced this county to spend in making the seas safe for Americans and the world safe for—well, whatever it was that we made it safe for.

No More Skirts

The skirt is doomed, says Booth Tarkington, the novelist. "Fifty years from now the skirt, as an article of women's apparel, will have disappeared entirely."

This statement doesn't arouse the consternation it might have aroused a decade or two ago. We are not easily shocked any more. Besides, there is little left of the skirt now. It seems plainly evolving, or devolving, into nothing right before our eyes.

Tarkington says he expects to see the time when all women will regularly wear garments just about the same as man's. There is no reason, he thinks, why they shouldn't. It isn't a question of modesty, but of custom and fitness.

We guess we can stand it, if we must. Bloomers are not so bad, anyway, though they used oddly to shock us early in this revolutionary century. Or if it's to be trousers, that too probably doesn't matter much. We can get used to anything. They'll still be the same women.

X-Rays On Pictures

The X-ray is now being used to decide as to the genuineness of old oil paintings at Harvard university and elsewhere. The X-ray picture is checked up with the surface picture, and with the findings of the expert, and helps to make the final decision.

Next things anyone knows, somebody will be using X-rays to find whether there was or was not a worm in the wormholes in antique furniture. Then where will the antiquer be with his modern mechanical worm-hole maker?

Or will the antique fans love their loot all the more because they have been fooled?

New York's proposed curfew law, closing the cabarets at 3 a. m., should help out-of-town visitors to get up in time for a noon breakfast.

Anyway, if next winter is going to break all records for severity, this summer will be good preparation for it.

If congress really wants to help agriculture, it might benefit two great industries at once by buying up the used cars on the market and giving them to the farmers.

The Terrible Disadvantage of Not Being Able to Write—By Fontaine Fox

NEW YORK DAYBYDAY

By O. O. McINTYRE

NEW YORK, June 26.—Along the meandering mile of Broadway a "morning glory" is a black eye, because it is usually acquired in one of those dawn battles without which a night in a cafe is a total loss. Women receive the decoration as well as men.

They are so common that when there is the sudden flutey tinkle of broken glass from an overturned table some do not even turn around. A cafe fight is always amusing. It usually ends with the belligerents hugging each other and perhaps snapping into a waltz.

Now and then a young girl will emerge from the ladies' room with tumbled hair and disheveled dress and angry red scratches on her cheeks. She has replied forcibly to some cutting remark, and stands dramatically in a circle of admirers like an avenging goddess.

Broadway girls when properly sparked up do not permit an affront to go by with mere words. They fight it out. Sometimes they are coaxed out to the pavement by fearful managers, where they battle until a policeman arrives.

And Tenderloin police are shy of battling women, for often the participants turn on them, and then there is nothing left to do but take a scratching and call the wagon. Until a few years ago women never fought in respectable cafes. Only in sordid Bowery dives.

It may be the quality of hooch that makes Broadway carry a chip on its shoulder in early hours. A roue with a faded lady may overhear the telling of a Pullman car decameron at the next table and suddenly feels righteously insulted. And the battle is on.

A gentleman stares too long at a lady and she informs her escort. Another biff and crash. There used to exist a free masonry among nocturnal pleasure seekers, and if a patron waxed angry he was quickly calmed and buying a drink all around. Those days are gone.

I have often wondered just as Mayor Walker has what those early morning workers, who appear as the pearly mist gives way to dawn, think as they see neurotic New York going home to bed. They see fine clothes, jewels and other glitter and faces flushed with the rosy wine of revelry. It all appears so different and gay from the ordinary tedium of a humdrum day. And yet—

The other morning a group in evening clothes wearing paper mardi gras caps walked out of a cafe just as the sun showed a bloodshot red. They half staggered to a waiting car and one shouted: "Now for a little fresh air." They blazed away and a half hour later in Long Island there was a sickening impact and a rain of glass. Two were scarred for life. Another will never use his legs again.

It used to be a first page story now and then when some hiker would wander off and become lost in the Jersey marshes, to be found almost unconscious from mosquito bites. The Jersey skeeter was like the mother-in-law, a stock joke in vaudeville and comic weeklies. New Jersey went quietly about the task of exterminating the mosquito. Today they do not cause any more annoyance than they do in Gotham.

Along Ninth Avenue railroad tracks at night are many old kindling women who gather there just as the sandwich men collect in Bryant Park at nightfall. The kindling women go about with sacks gathering up odd bits of rubbish which they sell to junk dealers. They are unwashed and ragged and merely stand together like cattle in a rain. Director J. J. Grafton Is Dead Following Two Weeks' Illness

Former C. & P. Railroad Worker and Active Figure in Local Political Circles, Succumbs Last Night at Home at 11:20 O'clock.

Following an illness of a little more than two weeks, J. J. Grafton, municipal safety-service director, retired railroad worker, and an active figure in political affairs as a Republican, died last night at 11:20 o'clock at his home at 450 Fourteenth street. His death was attributed to complications.

Mr. Grafton was well and favorably known throughout the city and district and in the Cleveland and Pittsburgh railroad centers as a result of his years of association with the Pennsylvania company.

He was a lifelong resident of the city. He was born March 25, 1863. At the age of 16 years he became an employe of the Pennsylvania Railroad company, taking his first job on October 1, 1879. He served continuously with the railroad company until July 1, 1925, when he was pensioned. He first learned the trade of machinist, and following a series of promotions, became assistant foreman of the machine shop here, the post he occupied at the time of his suspension.

He was an active figure in railroad circles, having been vice president of the Cleveland and Pittsburgh Division Veterans' association.

He was a member of the First Presbyterian church. In addition he was affiliated with the Masonic order, the Elks, the Junior Order of United American Mechanics, the Daughters of America and the Ben Hur.

Mr. Grafton probably was primarily responsible for the city's annual chautauqua exhibitions. As a member of the Junior Order, which organization sponsored the first appearance of a chautauqua here, he promoted the event himself and was its chief backer.

Mr. Grafton held the combined posts of safety and service director, having been appointed shortly after the first of the year by Mayor W. L. Fogo, and was active in his duties until illness forced him to his bed.

He was service director of the city on two occasions previously, having been elected both times. He served in 1910 under Ed McKenzie and in 1914 under D. F. Steiner. The office at that time was filled by election instead of by appointment.

As a county committeeman and vice chairman of the Republican Central committee, he had been active for years in political affairs of the city.

ATHENS REPORT OF U. S. CREDIT MAKES TROUBLE

Mystery Surrounds Source of $28,000,000 Loan Yarn.

MARKET IS HIT

Financiers Who Plunged on Stories Met Disaster.

LONDON—Mystery surrounds the source of the report which has bobbed up in Athens and elsewhere on the continent that the United States had decided to release to Greece a credit of $28,000,000—part of a war loan contracted for several years ago in Washington, but which Greece has never received.

Receipt of this sum from the American treasury was the chief condition laid down by Greece for the funding of her war debt to the United States, the refusal of the Washington government to agree having caused the breakdown of debt negotiations.

Shortly after the return of Greek debt negotiations from Washington to Athens, European money markets received what appeared to be a reliable report that the United States government had suddenly changed its policy, and that the $28,000,000 was to be made available to the Greek government, apart from the question of a settlement of the war debt. The immediate result of this report, especially in Athens, was a sensational fluctuation of the drachma, followed, according to reports reaching London, by several financial failures and a general feeling of nervousness in business circles.

Bankers who could see no reason for an alteration of the American policy sat tight, but others plunged on the report with disastrous results.

Efforts have been made to trace the report to its source in Athens, but official inquiries have revealed no tangible evidence of the originators of the report, although it is understood that the American minister has taken the matter up with the Greek foreign office. The burden of his official protest is said to have been that the Pangalos government should have quickly and formally denied the report before it became widespread and reflected upon the integrity of the United States government.

In his representations, the minister also brought forward the cases of various American firms, which, through their dealings in exchange, have suffered on account of the market fluctuations.

Director J. J. Grafton Is Dead Following Two Weeks' Illness

Former C. & P. Railroad Worker and Active Figure in Local Political Circles, Succumbs Last Night at Home at 11:20 O'clock.

Following an illness of a little more than two weeks, J. J. Grafton, municipal safety-service director, retired railroad worker, and an active figure in political affairs as a Republican, died last night at 11:20 o'clock at his home at 450 Fourteenth street. His death was attributed to complications.

Mr. Grafton was well and favorably known throughout the city and district and in the Cleveland and Pittsburgh railroad centers as a result of his years of association with the Pennsylvania company.

He was a lifelong resident of the city. He was born March 25, 1863. At the age of 16 years he became an employe of the Pennsylvania Railroad company, taking his first job on October 1, 1879. He served continuously with the railroad company until July 1, 1925, when he was pensioned. He first learned the trade of machinist, and following a series of promotions, became assistant foreman of the machine shop here, the post he occupied at the time of his suspension.

He was an active figure in railroad circles, having been vice president of the Cleveland and Pittsburgh Division Veterans' association.

He was a member of the First Presbyterian church. In addition he was affiliated with the Masonic order, the Elks, the Junior Order of United American Mechanics, the Daughters of America and the Ben Hur.

Mr. Grafton probably was primarily responsible for the city's annual chautauqua exhibitions. As a member of the Junior Order, which organization sponsored the first appearance of a chautauqua here, he promoted the event himself and was its chief backer.

Mr. Grafton held the combined posts of safety and service director, having been appointed shortly after the first of the year by Mayor W. L. Fogo, and was active in his duties until illness forced him to his bed.

He was service director of the city on two occasions previously, having been elected both times. He served in 1910 under Ed McKenzie and in 1914 under D. F. Steiner. The office at that time was filled by election instead of by appointment.

As a county committeeman and vice chairman of the Republican Central committee, he had been active for years in political affairs of the city.

News of his death saddened the throng of C. & P. employes who today were holding their annual outing at Summit Beach park, Akron, under auspices of the Veterans' and Athletic associations.

In addition to his wife he is survived by one son, George and three stepsons: James Miles, of East Liverpool; Loree, of Paris, France; and Hammond, of Wellsville.

Two brothers and three sisters are also living: H. B. Grafton, N. F. Grafton, Mrs. C. W. Davidson, Mrs. H. B. Dick and Mrs. F. E. Kerr, all of this city.

Funeral services will be held Monday afternoon at the late residence at 2:30 o'clock, in charge of Rev. Frank H. Magill, pastor of the First Presbyterian church. Burial will be made in Spring Hill cemetery.

SUPREME TRIBE OF BEN HUR WILL BUILD HOME IN INDIANA

CRAWFORDSVILLE, Ind., June 26.—A Ben-Hur home for aged and disabled members of the Tribe of Ben-Hur was authorized by the delegates to the fifteenth biennial session of this fraternal society gathered here this week from 30 states. The new structure, costing approximately $150,000 with a capacity of 45 persons, will probably be located near this city and will be the first unit of what is expected to be an extensive institution which will ultimately include a home and school for orphans and a hospital.

The report of the supreme officers indicate a growth in membership and show total assets of $5,800,000, a gain of $1,300,000 since the last meeting in 1924. As a consequence of this fortunate situation the convention directed the officers to divide a portion of the surplus among the members from time to time as funds permit.

The convention picture was taken in front of the old home of Lew Wallace, author of the book, Ben-Hur, upon which the ritual of the society is based. An address on the necessity of fraternalism in American life was delivered by former Governor Edwin P. Morrow of Kentucky, recently appointed to the United States railroad mediation board by President Coolidge.

An interesting feature of the meeting was the presentation to supreme chief, John C. Snyder, by 175 field workers of a scroll containing the names of over 1,100 new members secured by them in his honor during the month of May.

The delegates confirmed the establishment of the junior department for children from one to 16 years of age, the raising of the age limit to 60 years, making of all certificates incontestable after two years, the addition of double indemnity as a feature of certificates, the acceptance of substantial risks, and the reduction of prohibited occupations from 55 to 3. Hereafter protection will be granted to members without limit as to amount. All fees were abolished. The lodge plan of operation was unreservedly endorsed and the tendency among some societies to minimize its importance was deplored. In the interest of economy it was decided to hold general meetings hereafter quadrennially instead of every two years.

Q. Does a family of four going abroad have to have separate pictures for the passport? L. A. R.

A. A group picture will do. It should be 2½ by 2½ or 3 by 3 inches in size.

Q. Is the more rapid rising and setting of the sun at the equator due to the greater circumference of the earth? L. R. M.

A. The Naval Observatory says the more rapid rising and setting of the sun at the equator is not due to the greater circumference of the earth at that point, but to the fact that at the equator the sun rises and sets in a path perpendicular to the horizon, while in all other latitudes this path is inclined from the perpendicular.

Q. Why is land at the mouth of a river called a delta? A. B. D.

A. The name was given to a tract of land enclosed by the mouths of the Nile river which was shaped like the Greek letter delta. Now the term is used for any land so situated.

Q. Did Stephen A. Douglas outlive Lincoln? S. A. B.

A. Douglas, who was Lincoln's opponent for the presidency in 1860, died June 3, 1861, while Lincoln lived to be re-elected to the office.

Q. Why is the cranberry so-called? H. W.

A. Cranberry was originally craneberry. The fruit is borne on curved stalks which suggest the neck of a crane.

Q. What is the distinction between burglary and robbery? H. T. S.

A. Burglary is larceny committed in the night and becomes robbery if accompanied by violence to the person of the victim.

Q. What is meant by chrism? R. M. N.

A. This is the name of consecrated oil used in anointing, composed of oil and balsam or spices.

Q. Has Edinburgh always been the capital of Scotland? C. B.

A. The old capital of Scotland was the city of Scone in Perthshire said to have been founded by the Roman emperor Agricola about 700 A. D.

Q. Why don't architects include the pantry in the building of new homes? A. R. S.

A. It usually requires too many steps, as the homemaker has to pass to and from the sink or work table to get the utensils and supplies. It also was generally a "catch-all" for dust and for many things which did not belong in the pantry. Generally it is a poor investment since the cost of the average pantry would pay for all the needed built-in equipment of the average kitchen.

Q. Why does the wind blow in gusts? B. C.

A. The Weather Bureau says that this is owing to the friction between the air and the surface of the earth, and to the obstacles to the wind, such as houses, trees, and many other things. These things, friction and obstacles, cause the lower air to be turbulent, and more or less roll and tumble, hence to blow in gusts, as we say.

Q. How many motor camps are there in the United States and which state has the most? J. L. J.

A. There are said to be approximately 10,000 motor camps in the United States and California has the most, numbering 996.

Q. Who was our first minister to Poland? V. K.

A. Mr. Hugh Gibson who went to Poland in 1919 was our first minister to that country.

Q. What causes seasickness? J. D. S.

A. It is due to the peculiar effect of the swells or long rolls of the sea upon the internal ear. What are called the semi-circular canals of the internal ear are certain spaces filled with fruids. They act as a spirit-level to determine our place in space. The pronounced movements of the ship on a rolling sea make undue demands upon these organs, and the symptoms of seasickness develop.

Q. Where does the mocking bird go in the winter time? F. D.

A. The Biological Survey says that the mocking bird is practically non-migratory. Neither the males nor the females go south, but they are usually solitary in the winter.

Q. Please explain the signs of the zodiac. W. L. H.

A. The zodiac was an imaginary band extending around the celestial sphere, having as its middle line the ecliptic or apparent path of the sun. It was fixed at about 16 degrees in width so as to include the orbits of the sun and five planets. The zodiac is probably Babylonian in origin. The figures seem to have been based on the resemblance of the lines connecting the stars in the zodiacal constellations to certain pictorial outlines, which form the substratum of the Assyro-Babylonian cuneiform alphabets, while the animal figures and outlines were chosen for animistic reasons. The signs of the zodiac were carried from Babylonia to Greece, whence they spread throughout the ancient civilized world.

Q. What country has neither prisons nor policemen? R. G.

A. This is said of Ireland.

Q. When were slaves first sold? B. C.

A. The sale of slaves dates back to remote ages. Alexander, when he razed Thebes, sold the people for slaves, 335 B. C. The slave trade from Africa was begun by the Portugues about 1481. The first slaves in the United States were sold by the Dutch to settlers of Virginia in 1619.

Q. What is the relation between the Bow-bells and Cockneys? N. G.

A. The word "Cockney" is applied to one born within the sound of Bow-bells, the bells of St. Mary-le-bow, in Chesapeake, London, England.

Q. Can fish see? J. E. C.

A. The Bureau of Fisheries says that fish have a sense of sight. They see within a certain radius, depending on the amount of light.

SUPREME TRIBE OF BEN HUR WILL BUILD HOME IN INDIANA

CRAWFORDSVILLE, Ind., June 26.—A Ben-Hur home for aged and disabled members of the Tribe of Ben-Hur was authorized by the delegates to the fifteenth biennial session of this fraternal society gathered here this week from 30 states. The new structure, costing approximately $150,000 with a capacity of 45 persons, will probably be located near this city and will be the first unit of what is expected to be an extensive institution which will ultimately include a home and school for orphans and a hospital.

The report of the supreme officers indicate a growth in membership and show total assets of $5,800,000, a gain of $1,300,000 since the last meeting in 1924. As a consequence of this fortunate situation the convention directed the officers to divide a portion of the surplus among the members from time to time as funds permit.

The convention picture was taken in front of the old home of Lew Wallace, author of the book, Ben-Hur, upon which the ritual of the society is based. An address on the necessity of fraternalism in American life was delivered by former Governor Edwin P. Morrow of Kentucky, recently appointed to the United States railroad mediation board by President Coolidge.

An interesting feature of the meeting was the presentation to supreme chief, John C. Snyder, by 175 field workers of a scroll containing the names of over 1,100 new members secured by them in his honor during the month of May.

The delegates confirmed the establishment of the junior department for children from one to 16 years of age, the raising of the age limit to 60 years, making of all certificates incontestable after two years, the addition of double indemnity as a feature of certificates, the acceptance of substantial risks, and the reduction of prohibited occupations from 55 to 3. Hereafter protection will be granted to members without limit as to amount. All fees were abolished. The lodge plan of operation was unreservedly endorsed and the tendency among some societies to minimize its importance was deplored. In the interest of economy it was decided to hold general meetings hereafter quadrennially instead of every two years.

The keynote of the times is efficient service. In supplying its readers with a free information Bureau in Washington The Review-Tribune is living up to this principle in deed and fact. We are paying for this service in order that it may be free to the public. Submit your queries to the staff of experts whose services are put at your disposal. Q. Does a family of four going abroad have to have separate pictures for the passport? L. A. R.

A. A group picture will do. It should be 2¼ by 2¼ or 3 by 3 inches in size.

Q. Is the more rapid rising and setting of the sun at the equator due to the greater circumference of the earth? L. R. M.

A. The Naval Observatory says the more rapid rising and setting of the sun at the equator is not due to the greater circumference of the earth at that point, but to the fact that at the equator the sun rises and sets in a path perpendicular to the horizon, while in all other latitudes this path is inclined from the perpendicular.

Q. Why is land at the mouth of a river called a delta? A. B. D.

A. The name was given to a tract of land enclosed by the mouths of the Nile river which was shaped like the Greek letter delta. Now the term is used for any land so situated.

Q. Did Stephen A. Douglas outlive Lincoln? S. A. B.

A. Douglas, who was Lincoln's opponent for the presidency in 1860, died June 3, 1861, while Lincoln lived to be re-elected to the office.

Q. Why is the cranberry so-called? H. W.

A. Cranberry was originally craneberry. The fruit is borne on curved stalks which suggest the neck of a crane.

Q. What is the distinction between burglary and robbery? H. T. S.

A. Burglary is larceny committed in the night and becomes robbery if accompanied by violence to the person of the victim.

Q. What is meant by chrism? R. M. N.

A. This is the name of consecrated oil used in anointing, composed of oil and balsam or spices.

Q. Has Edinburgh always been the capital of Scotland? C. B.

A. The old capital of Scotland was the city of Scone in Perthshire said to have been founded by the Roman emperor Agricola about 700 A. D.

Q. Why don't architects include the pantry in the building of new homes? A. R. S.

A. It usually requires too many steps, as the homemaker has to pass to and from the sink or work table to get the utensils and supplies. It also was generally a "catch-all" for dust and for many things which did not belong in the pantry. Generally it is a poor investment since the cost of the average pantry would pay for all the needed built-in equipment of the average kitchen.

Q. Why does the wind blow in gusts? B. C.

A. The Weather Bureau says that this is owing to the friction between the air and the surface of the earth, and to the obstacles to the wind, such as houses, trees, and many other things. These things, friction and obstacles, cause the lower air to be turbulent, and more or less roll and tumble, hence to blow in gusts, as we say.

Q. How many motor camps are there in the United States and which state has the most? J. L. J.

A. There are said to be approximately 10,000 motor camps in the United States and California has the most, numbering 996.

Q. Who was our first minister to Poland? V. K.

A. Mr. Hugh Gibson who went to Poland in 1919 was our first minister to that country.

Q. What causes seasickness? J. D. S.

A. It is due to the peculiar effect of the swells or long rolls of the sea upon the internal ear. What are called the semi-circular canals of the internal ear are certain spaces filled with fluids. They act as a spirit-level to determine our place in space. The pronounced movements of the ship on a rolling sea make undue demands upon these organs, and the symptoms of seasickness develop.

Q. Where does the mocking bird go in the winter time? F. D.

A. The Biological Survey says that the mocking bird is practically nonmigratory. Neither the males nor the females go south, but they are usually solitary in the winter.

Q. Please explain the signs of the zodiac. W. L. H.

A. The zodiac was an imaginary band extending around the celestial sphere, having as its middle line the ecliptic or apparent path of the sun. It was fixed at about 16 degrees in width so as to include the orbits of the sun and five planets. The zodiac is probably Babylonian in origin. The figures seem to have been based on the resemblance of the lines connecting the stars in the zodiacal constellations to certain pictorial outlines, which form the substratum of the Assyro-Babylonian cuneiform alphabets, while the animal figures and outlines were chosen for animistic reasons. The signs of the zodiac were carried from Babylonia to Greece, whence they spread throughout the ancient civilized world.

Q. What country has neither prisons nor policemen? R. G.

A. This is said of Ireland.

Q. When were slaves first sold? B. C.

A. The sale of slaves dates back to remote ages. Alexander, when he razed Thebes, sold the people for slaves, 335 B. C. The slave trade from Africa was begun by the Portugues about 1481. The first slaves in the United States were sold by the Dutch to settlers of Viriginia in -1619.

Q. What is the relation between the Bow-bells and Cockneys? N. G.

A. The word "Cockney" is applied to one born within the sound of Bow-bells, the bells of St. Mary-le-bow, in Chesapeake, London, England.

Q. Can fish see? J. E. C.

A. The Bureau of Fisheries says that fish have a sense of sight. They see within a certain radius, depending on the amount of light.

So much interest has been taken in electric-power development in Japan that now more electricity is being generated than can be used.

RUSSELL SCOTT MAY KNOW HIS FATE TONIGHT

Condemned Chicago Slayer Awaits Ruling on Sanity.

JURY TO DECIDE

Decision Means Hanging or Life in State Hospital.

CHICAGO, June 26.—The fate of Russell Scott—death on the gallows or life in the state hospital for the criminal insane—may be known as early as tonight.

A jury for the second time is trying Scott for his sanity. A year ago he was found insane and committed to Chester asylum, the writ ordering the trial coming just two hours before Scott was scheduled to hang for the murder of Joseph Mauer, a drug clerk.

Recently a commission of alienists reported Scott had recovered his sanity and recommended he be returned to Cook county to hang. This second trial was ordered to check on the commission's finding.

One more witness, a resident of Detroit, remains to be heard. This witness, located by the defendant's mother, Mrs. Rita Scott, of Cleveland, will testify Russell was a narcotic addict.

Prosecutors and Defense Attorney William Scott Stewart will then begin their arguments. It is believed the jury will have the case sometime tonight.

Four alienists testified yesterday Scott is a victim of paranoid dementia and suffers persecutory delusions. One of the defense alienists was a woman, Dr. Rosalie M. La Dova.

Russell's brother, Robert Scott, who helped stage the hold-up in which Maurer was killed and escaped following the shooting, is now in jail awaiting trial for the same murder.

DRY 'WAR CHEST' QUIZ CALLED

Senate Committee Calls for Financial Records.

WASHINGTON, June 26.—A sweeping investigation of the $35,000,000 "war chest" used by the Anti-Saloon league of America to write prohibition into the constitution was assured today when the senate "slush fund" committee called for the league's financial records for every year since 1917.

The request was made of Wayne B. Wheeler, general counsel of the league, by Senator Reed, (D.), of Missouri, chairman. The records, which the committee will examine, include all contributions, subscriptions, the payroll of the national organization and the campaign and educational expenditures for the last ten years.

"I want the financial records for every year since the league begun its national campaign to put the prohibition amendment in the constitution," said Reed.

Wheeler agreed to furnish the documents.

When Wheeler requested that the league be permitted to produce certified copies of the record instead of bringing the original books to Washington, the committee agreed to send an expert accountant to Westerville, Ohio, where he league's headquarers are located.

Wheeler requested that the names of contributors to the anti-saloon league be kept private but the committee immediately overruled him.

THE LEHIGH & New England road was leased to the Reading at a rental of more than a million a year for 999 years. In 999 years the railroad of today will be as much a transportation curiosity as the camel that carried the Queen of Sheba. In 99 years there will be no passenger travel on railroads, except for short distances. All other travel will be in the air, and cumbersome, wasteful carriages mounted on wheels will have disappeared.

She lived here until a few years ago when the family moved to Longmont, Colorado. Bobby Jones Sails.

SOUTHAMPTON, England, June 26.—"I will probably do a jig all the way across the Atlantic," said Bobby Jones, British open golf champion, today when he boarded the S. S. Aquitania here, lugging the huge championship cup with him.

"Life seems most rosy to me just now, but I haven't had time to give vent to my excitement."

Eight Reasons Cited

(Continued from Page One)

after his second trial. The bond was posted and Anderson freed.

Eight causes as to why a new trial should be granted are set forth in the motion. They are:

"First—The court erred in rejecting evidence offered by the plaintiff in error.

"Second—The court erred in admitting evidence over the objection of the plaintiff in error.

"Third—The court erred in refusing to permit the jury to inspect and examine during the trial the automatic gun introduced by the state as an exhibit.

"Fourth — The court erred in his charge to the jury.

"Fifth—The court erred in refusing to charge the jury as requesting in writing by the plaintiff in error.

"Sixth — The verdict was clearly and manifestly against the weight of the evidence.

"Seventh—The court erred in refusing to permit the jury to inspect during argument of counsel the automatic gun introduced as an exhibit by the state.

"Eighth—The verdict was rendered for the state of Ohio but it should have been rendered in favor of the plaintiff in error."

Anderson's last conviction occurred June 3, after the jury had taken 10 ballots. Judge Irving Carpenter, of Norwalk, who presided at Anderson's trial, sentenced him to from four years and eight months to 20 years in the penitentiary, but granted a stay of execution to permit the defendant to carry his case to the court of appeals.

Anderson served four months of the first sentence, five to 20 years, before he was granted a second trial.

AIMEE SEMPLE M'PHERSON OFF TO CALIFORNIA

Woman Evangelist Leaves Douglas, Arizona.

SHE IS GUARDED

Building Inspector Says He Saw Her in Tucson.

LOS ANGELES, Cal., June 26.—Aimee Semple McPherson, famous evangelist, who disappeared in the surf at Ocean Park so mysteriously May 18, and who was found in Agua Prieta, Mexico, was on the way home from Douglas, Arizona, today. She was accompanied by her mother, Mrs. Minnie Kennedy, her two children, Rolf and Roberta, and a group of newspaper men. Eight special armed agents were along as gurds.

The noted evangelist's train left Douglas at 9:16 o'clock last night and was scheduled to reach here about 3 o'clock this afternoon. Several hundred persons bid Mrs. McPherson farewell at the Douglas station.

Avoid Public Demonstration.

Plans were being made to take the noted evangelist from the train at some point outside the city in order to avoid a huge public demonstration. At the Angelus Temple, Mrs. McPherson's church, elaborate plans were under way, however, for what promised to eclipse any welcome ever given an arrival in Los Angeles.

Arrangements have been made to keep strangers out of the McPherson coach, it was said. The guards who are accompanying the party were placed on the train following rumors that mysterious death threats had been received by both the evangelist and her mother.

Probe Kidnaping Story.

Meanwhile Arizona officials continued an exhaustive probe of Mrs. McPherson's story of being kidnaped and held a prisoner in Mexico for $500,000 ransom. They were spurred on by a $500 reward offered by Mrs. McPherson for the finding of the shack in which she was held captive and by a $10,000 reward offered by the Los Angeles Examiner for the arrest and conviction of the abductors of Mrs. McPherson.

After long hours of futile search Douglas police late last night reported that a cabin had been sighted which might be the one in which Mrs. McPherson says she was held captive by the kidnapers. The cabin was discovered by a posse, police said, headed by Constable O. A. Ash. The posse was said to have been confident of finding clews which may lead them to the abductors. The trail was resumed at dawn today according to reports.

Fail To Find Shack.

Previously experienced border rangers had declared that no such shack as the one she described by Mrs. McPherson existed within a radius of 50 miles of Douglas.

"I will be in the pulpit at Angelus Temple Sunday," Mrs. McPherson announced in a message received here. She is said to be working upon the sermon she expects to preach Sunday which she stated will be a "Resurrection sermon" in which she will tell "how the Lord preserved me for my people."

Tucson Man's Statement.

ON BOARD THE GOLDEN STATE LIMITED, Enroute to Los Angeles, June 26.—Aimee Semple McPherson was in Tucson, Arizona, weeks ago, according to B. F. Greenwood, building inspcetor of Tucson, who boarded the train at Tucson early today and pointed out the noted evangelist as the woman he saw.

"If it wasn't you it was your twin sister," said Greenwood.

"You realize," said Mrs. McPherson, "that you are making a very grave statement."

"I do," said Greenwood.

Captain of Detectives Herman Cline, of Los Angeles, also spoke to Greenwood and told him of the gravity of the statement he made. After a short pause, Greenwood said: "If it was not you I saw it was your twin sister."

Woman Visibly Affected.

Greenwood said he saw Mrs. McPherson on the Tucson street three weeks ago. He said that the woman he saw had auburn hair, but he identified her more by the eyes than anything else, he said.

French Youth Sing 'Hail, Hail' At St. Nazaire Celebration

Marching Song of A. E. F. Echoes Through Streets of Seaport at Dedication of Mrs. Harry Payne Whitney War Memorial.

ST. NAZAIRE, France, June 26.—"Hail, Hail, the Gang's All Here . . ."

The raucous strains and verile words of this marching son of the A. E. F. again echoed through the winding crooked streets of this old French port again today.

It was not the voices of husky, basso profundo doughboys, sludging down the muddy hillside of St. Nazaire, that sang the song today. It was the voices of French youth, who as children five years ago learned to sing this song as a prelude to the plaintive appeal, "pennese pour moi."

Many French children of this town grew up to believe that "Hail, Hail, the Gang's All Here," was the national anthem of the Americans, and St. Nazaire was American again for the day.

Dignified ceremonies were carried out for the dedication of the Mrs. Harry Payne Whitney war memorial presented to France, but the fine words spoken at the memorial dedication exercises were no more earnest in their tribute than the song of the street gamins, who rejoiced in memories of those thousands and thousands of khaki-clad Americans who went trudging the misty, miry streets of St. Nazaire in the war days.

Ablaze With American Flags.

The old town was ablaze with American flags, intertwined with the French tri-color.

Eight American warships lay in the port where bedazelled camouflaged transports used to anchor. Dignitaries came down from Paris, and high military and naval officers in their brilliant uniforms dashed here and there in high powered cars. The blue jacketed and white-capped gobs from the American warships fraternized with the red-pom-pommed marines of the French warships.

The celebration was in commemoration of the landing of the first American contingent of the A. E. F., and Ambassador Herrick took occasion to make a speech, dedicating the war memorial, to deny charges of American materialism.

"We recognize that we probably have made many mistakes, but we alone seem to have suffered from them,' said the ambassador. "We look other people frankly in the eye and are proud in the knowledge of always having treated other nations justly and we are firmly resolved to continue to act in the same way in the future."

REPORTS FROM STOCK MARKET

NEW YORK, June 26.—Industrial stocks price were steady in an unusually dull and featureless half-session of the market today. Short covering in the motor stocks accounted for a few fractional gains, while tobacco stocks and a few of the specialities exhibited a stronger tone. The bulk of steel, oil and railroad shares did not fluctuate more than a small fraction from Friday's closing prices.

The professionals sold stocks of the mercantile companies which operate largely in the farming districts on the pretext that the failure of the farm legislation at Washington would mean a decline in the purchasing power of the great agricultural districts. The movement was without special effect on the market as a whole, and only slight declines were recorded in the stocks under pressure.

Brokers reported a good inquiry for the investment rails, most of which reached fractionally higher price levels in restricted trading. Chesapeake and Ohio continued to occupy the center of the stage, though New York Central and Atchison were also in demand. Both the traffic and earnings reports were favorable. Tobacco stocks and baking stocks sold higher.

BANDIT SHOOTS GARAGE WORKER

Cleveland Man Near Death After Fight With Robber.

CLEVELAND, June 26.—Bradford C. Maxon, 25, night cashier of the Hotel Winton garage, was in Lakeside hospital, today, at the point of death, as the result of being shot below the heart early this morning when he resisted one of two gunmen who sought to rob him in the garage office.

The robbers pulled up in front of the garage in a car and caught Maxon alone in the office. One of the men pressed a gun against Maxon's side and commanded him to surrender the receipts in the safe.

Instead of complying, Maxon struck at the hold-up man and the robber shot at him twice. One bullet struck Maxon below the heart, inflicting a probably fatal wound, and the other hit him in the neck.

The bandits escaped without any loot. There were several hundred dollars in the safe, police said.

A few hours before the shooting two masked men held up Sam M. Deutsch of the Deutsch & Rosengarten Drug company, as he drove into his garage at home and robbed him of $5 cash and jewelry valued at $1,400.

HOLD TWO MEN FOR ATTACK ON PRETTY GIRL

Two Society Leaders are Prisoners in Montreal.

"SPEEDING" COUNT

Actress Names New Yorkers as "Gas Hawks."

MONTREAL, Quebec, June 26.—Two officials from Westchester county, New York, were on their way here today to confront Philip Elliott and Richard Thorne, arrested here as the youths suspected of attacking Violet Anderson, pretty 20-year show girl, formerly of Cleveland, O., after she was taken on an automobile ride on a lonely road out from New York city.

This information came today to the authorities who are holding the alleged belt buckle entertainers on a technical charge of "speeding."

Miss Anderson told a grand jury at White Plains, N. Y., this week that the two men under arrest had asked her to go on an automobile ride after they had dinner at an inn; that she went, that they drove her to a lonely spot near Harrison, N. Y., took her out of the car, stripped her of her clothing and beat her with their belts "until the blood ran."

If the youths in custody here are identified as the assailants of Miss Anderson they will fight extradition, it was said. Both are said to be prominent in New York and Palm Beach social circles.

The young men were arrested yesterday after arriving here June 16 in a green sedan and making a decided impression on Montreal society. They have been entertained at the smartest golf clubs and won attention as two of the best dressed young men who have arrived here from the states for some time. The consequent shock to society, and especially the prominent golfer who introduced them everywhere, was great.

Their arrest was brought about by the suspicion of one of their newly found friends here who thought they were using a stolen car owing to their "nervousness." Detectives were put on their trail for three days and their detention followed.

The youths face sentences of 25 years each should they be convicted in New York state for the offenses with which they are charged.

Police said they found clippings in their possession relating to the attack on Miss Anderson.

RUSSELL SCOTT MAY KNOW HIS FATE TONIGHT

Condemned Chicago Slayer Awaits Ruling on Sanity.

JURY TO DECIDE

Decision Means Hanging or Life in State Hospital.

CHICAGO, June 26.—The fate of Russell Scott—death on the gallows or life in the state hospital for the criminal insane—may be known as early as tonight.

A jury for the second time is trying Scott for his sanity. A year ago he was found insane and committed to Chester asylum, the writ ordering the trial coming just two hours before Scott was scheduled to hang for the murder of Joseph Mauer, a drug clerk

Recently a commission of alienists reported Scott had recovered his sanity and recommended he be returned to Cook county to hang. This second trial was ordered to check on the commission's finding.

One more witness, a resident of Detroit, remains to be heard. This witness, located by the defendant's mother, Mrs. Rita Scott, of Cleveland, will testify Russell was a narcotic addict.

Prosecutors and Defense Attorney William Scott Stewart will then begin their arguments. It is believed the jury will have the case sometime tonight.

Four alienists testified yesterday Scott is a victim of paranoid dementia and suffers persecutory delusions. One of the defense alienists was a woman, Dr. Rosalie M. La Dova.

Russell's brother, Robert Scott, who helped stage the hold-up in which Maurer was killed and escaped following the shooting, is now in jail awaiting trial for the same murder.

DRY 'WAR CHEST' QUIZ CALLED

Senate Committee Calls for Financial Records.

WASHINGTON, June 26.—A sweeping investigation of the $35,000,000 "war chest" used by the Anti-Saloon league of America to write prohibition into the constitution was assured today when the senate "slush fund" committee called for the league's financial records for every year since 1917.

The request was made of Wayne B. Wheeler, general counsel of the league, by Senator Reed, (D.), of Missouri, chairman. The records, which the committee will examine, include all contributions, subscriptions, the payroll of the national organization and the campaign and educational expenditures for the last ten years.

"I want the financial records for every year since the league begun its national campaign to put the prohibition amendment in the constitution," said Reed.

Wheeler agreed to furnish the documents.

When Wheeler requested that the league be permitted to produce certified copies of the record instead of bringing the original books to Washington, the committee agreed to send an expert accountant to Westerville, Ohio, where he league's headquarers are located.

Wheeler requested that the names of contributors to the anti-saloon league be kept private but the committee immediately overruled him.

THE LEHIGH & New England road was leased to the Reading at a rental of more than a million a year for 999 years. In 999 years the railroad of today will be as much a transportation curiosity as the camel that carried the Queen of Sheba. In 99 years there will be no passenger travel on railroads, except for short distances. All other travel will be in the air, and cumbersome, wasteful carriages mounted on wheels will have disappeared.

Wells Two Down

on the eighth. He could have played safe by using an iron. The Toledoan lofted an excellent shot from the rough to the cup and stymied Wells who was short. The ex-champ conceded the hole.

Their Cards.

Wells, however, regained the hole in the ninth when Campbell shot to the left back of a bunker. Campbell overshot the cup and conceded the hole.

The cards:

Wells, out	545	445	563	—41
Campbell, out	553	345	555	—40

Campbell increased his lead over Wells to two up at the end of the 18th hole.

The cards follow:

Wells, in	436	524	634	—37
Campbell, in	355	624	526	—38

Wells made a three on the 11th hole, which is 470 yards. On the 14th hole, which is 145 yards, both Wells and Campbell made it in two strokes.

Bobby Jones Sails.

SOUTHAMPTON, England, June 26.—"I will probably do a jig all the way across the Atlantic," said Bobby Jones, British open golf champion, today when he boarded the S. S. Aquitania here, lugging the huge championship cup with him.

"Life seems most rosy to me just now, but I haven't had time to give vent to my excitement."

Eight Reasons Cited

(Continued from Page One)

after his second trial. The bond was posted and Anderson freed.

Eight causes as to why a new trial should be granted are set forth in the motion. They are:

"First—The court erred in rejecting evidence offered by the plaintiff in error.

"Second—The court erred in admitting evidence over the objection of the plaintiff in error.

"Third—The court erred in refusing to permit the jury to inspect and examine during the trial the automatic gun introduced by the state as an exhibit.

"Fourth — The court erred in his charge to the jury.

"Fifth—The court erred in refusing to charge the jury as requesting in writing by the plaintiff in error.

"Sixth — The verdict was clearly and manifestly against the weight of the evidence.

"Seventh—The court erred in refusing to permit the jury to inspect during argument of counsel the automatic gun introduced as an exhibit by the state.

"Eighth—The verdict was rendered for the state of Ohio but it should have been rendered in favor of the plaintiff in error."

Anderson's last conviction occurred June 3, after the jury had taken 10 ballots. Judge Irving Carpenter, of Norwalk, who presided at Anderson's trial, sentenced him to from four years and eight months to 20 years in the penitentiary, but granted a stay of execution to permit the defendant to carry his case to the court of appeals.

Anderson served four months of the first sentence, five to 20 years, before he was granted a second trial.

AIMEE SEMPLE M'PHERSON OFF TO CALIFORNIA

Woman Evangelist Leaves Douglas, Arizona.

SHE IS GUARDED

Building Inspector Says He Saw Her in Tucson.

LOS ANGELES, Cal., June 26.—Aimee Semple McPherson, famous evangelist, who disappeared in the surf at Ocean Park so mysteriously May 18, and who was found in Agua Prieta, Mexico, was on the way home from Douglas, Arizona, today. She was accompanied by her mother, Mrs. Minnie Kennedy, her two children, Rolf and Roberta, and a group of newspaper men. Eight special armed agents were along as gurds.

The noted evangelist's train left Douglas at 9:16 o'clock last night and was scheduled to reach here about 3 o'clock this afternoon. Several hundred persons bid Mrs. McPherson farewell at the Douglas station.

Avoid Public Demonstration.

Plans were being made to take the noted evangelist from the train at some point outside the city in order to avoid a huge public demonstration. At the Angelus Temple, Mrs. McPherson's church, elaborate plans were under way, however, for what promised to eclipse any welcome ever given an arrival in Los Angeles.

Arrangements have been made to keep strangers out of the McPherson coach, it was said. The guards who are accompanying the party were placed on the train following rumors that mysterious death threats had been received by both the evangelist and her mother.

Probe Kidnaping Story.

Meanwhile Arizona officials continued an exhaustive probe of Mrs. McPherson's story of being kidnaped and held a prisoner in Mexico for $500,000 ransom. They were spurred on by a $500 reward offered by Mrs. McPherson for the finding of the shack in which she was held captive and by a $10,000 reward offered by the Los Angeles Examiner for the arrest and conviction of the abductors of Mrs. McPherson.

After long hours of futile search Douglas police late last night reported that a cabin had been sighted which might be the one in which Mrs. McPherson says she was held captive by the kidnapers. The cabin was discovered by a posse, police said, headed by Constable O. A. Ash. The posse was said to have been confident of finding clews which may lead them to the abductors. The trail was resumed at dawn today according to reports.

Fail To Find Shack.

Previously experienced border rangers had declared that no such shack as the one she described by Mrs. McPherson existed within a radius of 50 miles of Douglas.

"I will be in the pulpit at Angelus Temple Sunday," Mrs. McPherson announced in a message received here. She is said to be working upon the sermon she expects to preach Sunday which she stated will be a "Resurrection sermon" in which she will tell "how the Lord preserved me for my people."

Tucson Man's Statement.

ON BOARD THE GOLDEN STATE LIMITED, Enroute to Los Angeles, June 26.—Aimee Semple McPherson was in Tucson, Arizona, weeks ago, according to B. F. Greenwood, building inspcetor of Tucson, who boarded the train at Tucson early today and pointed out the noted evangelist as the woman he saw.

"If it wasn't you it was your twin sister," said Greenwood.

"You realize," said Mrs. McPherson, "that you are making a very grave statement."

"I do," said Greenwood.

Captain of Detectives Herman Cline, of Los Angeles, also spoke to Greenwood and told him of the gravity of the statement he made. After a short pause, Greenwood said: "If it was not you I saw it was your twin sister."

Woman Visibly Affected.

Greenwood said he saw Mrs. McPherson on the Tucson street three weeks ago. He said that the woman he saw had auburn hair, but he identified her more by the eyes than anything else, he said.

French Youth Sing 'Hail, Hail' At St. Nazaire Celebration

Marching Song of A. E. F. Echoes Through Streets of Seaport at Dedication of Mrs. Harry Payne Whitney War Memorial.

ST. NAZAIRE, France, June 26.—"Hail, Hail, the Gang's All Here . . ." The raucous strains and verile words of this marching son of the A. E. F. again echoed through the winding crooked streets of this old French port again today.

It was not the voices of husky, basso profundo doughboys, sludging down the muddy hillside of St. Nazaire, that sang the song today. It was the voices of French youth, who as children five years ago learned to sing this song as a prelude to the plaintive appeal, "pennece pour moi."

Many French children of this town grew up to believe that "Hail, Hail, the Gang's All Here," was the national anthem of the Americans, and St. Nazaire was American again for the day.

Dignified ceremonies were carried out for the dedication of the Mrs. Harry Payne Whitney war memorial presented to France, but the fine words spoken at the memorial dedication exercises were no more earnest in their tribute than the song of the street gamins, who rejoiced in memories of those thousands and thousands of khaki-clad Americans who went trudging the misty, miry streets of St. Nazaire in the war days.

Ablaze With American Flags.

The old town was ablaze with American flags, intertwined with the French tri-color.

Eight American warships lay in the port where bedazelled camouflaged transports used to anchor. Dignitaries came down from Paris, and high military and naval officers in their brilliant uniforms darhed here and there in high powered cars. The blue jacketed and white-capped gobs from the American warships fraternized with the red-pom-pommed marines of the French warships.

The celebration was in commemoration of the landing of the first American contingent of the A. E. F., and Ambassador Herrick took occasion to make a speech, dedicating the war memorial, to deny charges of American materialism.

"We recognize that we probably have made many mistakes, but we alone seem to have suffered from them,' said the ambassador. "We look other people frankly in the eye and are proud in the knowledge of always having treated other nations justly and we are firmly resolved to continue to act in the same way in the future."

REPORTS FROM STOCK MARKET

NEW YORK, June 26.—Industrial stocks price were steady in an unusually dull and featureless half-session of the market today. Short covering in the motor stocks accounted for a few fractional gains, while tobacco stocks and a few of the specialities exhibited a stronger tone. The bulk of steel, oil and railroad shares did not fluctuate more than a small fraction from Friday's closing prices.

The professionals sold stocks of the mercantile companies which operate largely in the farming districts on the pretext that the failure of the farm legislation at Washington would mean a decline in the purchasing power of the great agricultural districts. The movement was without special effect on the market as a whole, and only slight declines were recorded in the stocks under pressure.

Brokers reported a good inquiry for the investment rails, most of which reached fractionally higher price levels in restricted trading. Chesapeake and Ohio continued to occupy the center of the stage, though New York Central and Atchison were also in demand. Both the traffic and earnings reports were favorable. Tobacco stocks and baking stocks sold higher.

BANDIT SHOOTS GARAGE WORKER

Cleveland Man Near Death After Fight With Robber.

CLEVELAND, June 26.—Bradford C. Maxon, 25, night cashier of the Hotel Winton garage, was in Lakeside hospital, today, at the point of death, as the result of being shot below the heart early this morning when he resisted one of two gunmen who sought to rob him in the garage office.

The robbers pulled up in front of the garage in a car and caught Maxon alone in the office. One of the men pressed a gun against Maxon's side and commanded him to surrender the receipts in the safe.

Instead of complying, Maxon struck at the hold-up man and the robber shot at him twice. One bullet struck Maxon below the heart, inflicting a probably fatal wound, and the other hit him in the neck.

The bandits escaped without any loot. There were several hundred dollars in the safe, police said.

A few hours before the shooting two masked men held up Sam M. Deutsch of the Deutsch & Rosengarten Drug company, as he drove into his garage at home and robbed him of $5 cash and jewelry valued at $1,400.

HOLD TWO MEN FOR ATTACK ON PRETTY GIRL

Two Society Leaders are Prisoners in Montreal.

"SPEEDING" COUNT

Actress Names New Yorkers as "Gas Hawks."

MONTREAL, Quebec, June 26.—Two officials from Westchester county, New York, were on their way here today to confront Philip Elliott and Richard Thorne, arrested here as the youths suspected of attacking Violet Anderson, pretty 20-year show girl, formerly of Cleveland, O., after she was taken on an automobile ride on a lonely road out from New York city.

This information came today to the authorities who are holding the alleged belt buckle entertainers on a technical charge of "speeding."

Miss Anderson told a grand jury at White Plains, N. Y., this week that the two men under arrest had asked her to go on an automobile ride after they had dinner at an inn; that she went, that they drove her to a lonely spot near Harrison, N. Y., took her out of the car, stripped her of her clothing and beat her with their belts "until the blood ran."

If the youths in custody here are identified as the assailants of Miss Anderson they will fight extradition, it was said. Both are said to be prominent in New York and Palm Beach social circles.

The young men were arrested yesterday after arriving here June 16 in a green sedan and making a decided impression on Montreal society. They have been entertained at the smartest golf clubs and won attention as two of the best dressed young men who have arrived here from the states for some time. The consequent shock to society, and especially the prominent golfer who introduced them everywhere, was great.

Their arrest was brought about by the suspicion of one of their newly found friends here who thought they were using a stolen car owing to their "nervousness." Detectives were put on their trail for three days and their detention followed.

The youths face sentences of 25 years each should they be convicted in New York state for the offenses with which they are charged.

Police said they found clippings in their possession relating to the attack on Miss Anderson.

Welding Theory Changing.

As a result of experimental work with atoms of hydrogen the theory of welding may be revolutionized. The idea behind the experiments is to pass the hydrogen atoms through an electric arc which produces a flame vastly hotter than the acetylene torch heretofore principally used for welding. By getting this heat welding of ordinary materials will be possible it is said, that will make the welded portions as strong as one original piece. If the experiments are developed commercially it may mean the passing of riveting to a large extent.

Welding Theory Changing.

As a result of experimental work with atoms of hydrogen the theory of welding may be revolutionized. The idea behind the experiments is to pass the hydrogen atoms through an electric arc which produces a flame vastly hotter than the acetylene torch heretofore principally used for welding. By getting this heat welding of ordinary materials will be possible it is said, that will make the welded portions as strong as one original piece. If the experiments are developed commercially it may mean the passing of riveting to a large extent.

Vaudeville Bill and DeLuxe Films at Ceramic Theatre

Fourth Street Playhouse Announces New Summer Policy—Orchestra Music and Reduced Prices for Matinees.

Marking a decided change in policy, Manager William Tallman today announced that high class vaudeville, featuring metropolitan attractions, will be presented in addition to de luxe motion picture offerings at the Ceramic theatre during the summer.

Commencing with Monday, when reduced matinee prices—10 cents for children and 25 cents for adults—will be in effect, stellar vaudeville acts will be staged. Orchestra music also will be featured at the matinees as well as the evening shows.

Appearing in connection with all-star screen program during the first three days of the week will be Ray Alvino, with Harry Fausette and Bebe Chalmers, and his original Minstrel Boys, direct from Eddie Leonard's famous minstrel show, "Oh, Didn't It Rain."

Speaking of this offering, a Morgantown, W. Va., newspaper says:

"Excellent dance numbers by Harry Fausette and novelty banjo features by one of the soloists, are the outstanding hits of the program offered as the stage attraction at the Metropolitan this half of the week, by "Ray Alvino and Boys." Banjo and saxophone music that has seldom been equaled here are presented by the black face boys who know the selections that please. Monday's audiences gave the musicians enthusiastic recalls, to which they generously responded.

"To say that Harry Fausette's dancing is fine is putting it mildly. This eccentric hotfooter interprets all of the vocal numbers, the banjo and saxophone music and improvises to some extent. The group has been associated with Eddie Leonard's Minstrels this season, and their stage setting includes an artistic drop and pretty lighting.

"Bebe Chalmers, the pretty girl with the band, introduces a Charleston which is finished by the inimitable Fausette in his characteristic manner.

"The soloist's banjo duet on one instrument and his playing of an air and accompaniment with one hand are interesting novelties."

In addition to the vaudeville offering, an attractive motion picture booking has been engaged. Heading the screen offering is Pola Negri in a truly American story with a Palm Beach setting, "Good and Naughty." Al St. John is the star in a Mermaid comedy, "Fire Away," while Felix, the Cat sets off the program.

During the last days of the week, Basil Fomeen's Royal Accordian Ensemble, another stellar vaudeville feature, will present a worth while musical and dancing act in connection with Richard Dix's latest film success, "Let's Get Married." Nita Rosso, known as the whirlwind dancer, and Wanda Goll, famous radio singer, are members of the ensemble.

The vaudeville attractions to be presented by Manager Tallman are engaged through an agency that books all features for the Million Dollar Grand theatre at Pittsburgh.

Dr. C. H. Smith Will Speak Sunday Night In Cafeteria Hall

A lecture on the subject, "A Standard for the People," will be delivered by Dr. C. H. Smith, of Pittsburgh, at the Ceramic cafeteria auditorium, West Fifth street, at 7:30 o'clock Sunday evening.

The speaker will point out the need for a common standard, a common rallying center, around which people can gather and work for peace and for all that is desirable in the relationship of man with man. He asserts that such a standard is not unattainable; that on the contrary it is right within reach and may be readily understood and appreciated by all.

No collection will be taken at the lecture and all seats are free.

A daily vacation Bible school, open to all children of the city, will be conducted at the Curry Memorial Presbyterian church, West Eighth street, this summer. Courses in art, hand work, carpentry, music and songs will be offered. Sessions will be held daily except on Saturday and Sunday.

The church is now undergoing improvements under the direction of the Ladies' Aid society.

ed sending delegates. The senate debated the matter at length, and the house delayed the appropriation bill for ending delegates. Finally the president was authorized to send them, but they reached Panama City after the close of the conference.

This first Pan American congress drew up treaties of perpetual union, league, and confederation between the four countries which took part, but these were never ratified except in part by Colombia. Even Peru would not ratify, and Bolivar was much disappointed. Mexico and Guatemala refused to ratify, and the future meetings called for by the congress was not held. Thus the dream of the Liberator was apparently wrecked, and yet the years to come were to justify his whole vision of a great series of free republics, generally harmonies, covering the western hemisphere.

A great number and variety of Pan American gatherings have been held in the subsequent 100 years. Discussion is frequently heard at present of an American league of nations, and the leaders of thought in all walks of life, as recently those in journalism and soon those of medicine, foregather for international conferences and congresses.

A statue of Bolivar, the Liberator, was unveiled at Panama on June 22, the centennial of the meeting of his first congress of the Americas. He had prophesied the building of a canal such as now connects the oceans at the place he selected for the congress, and had foreseen many of the steps which have taken place in the development of the countries and peoples for whom he fought, and who in his lifetime frequently rejected and exiled or imprisoned him.

Now- for America
a revolutionary European-type
high-speed Light Car

This New Car Offers:
30 miles on a gallon of gasoline
55 miles an hour—5 to 30 miles in 13 seconds
4-wheel brakes—stops in 51 feet from 40 miles an hour
Turns in 34-foot circle—easiest car in America to park
5 feet 8 inches high—lower gravity center—greater safety
European-type body—more inside room than any other light car

One of the first Whippets being inspected by Miss Lois Wilson at her New York motion picture studio

A three-minute study of these remarkable facts may save you from buying an obsolete automobile

THIS is the announcement of a revolutionary new-type car, different from anything you have ever known before.

A car that combines the advanced engineering practice of Europe with new and improved standards of American performance.

This new car has a low, European-type body. With height and length in true symmetrical proportion.

It is 5 feet 8 inches high . . . not as tall as the average man. Yet it provides more room and comfort than you've ever found in any automobile of this class before.

It has a high-torque, 31 horsepower motor of small bore and long stroke—the same engineering principle used in the fastest racing cars of America and Europe.

It turns in a 34-foot circle . . . that's less than the width of an average city street. You can park in 14 feet . . . which is much less than the space required for the ordinary car.

4-wheel brakes are an integral part of this new car's chassis design . . . a necessity which light car owners have not heretofore enjoyed. Measured tests show that it will stop in 51 feet from a speed of 40 miles an hour.

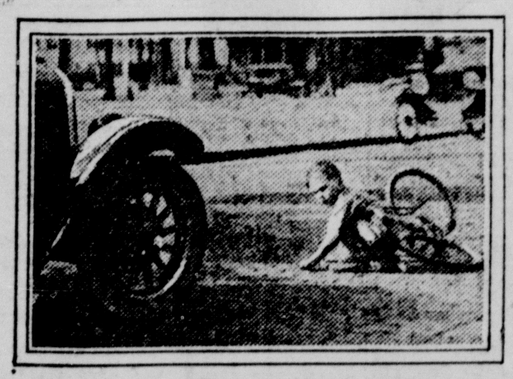

Its center of gravity is extremely low, with ample road clearance . . . thus giving a sense of security you have never found in any light car. Something you actually feel when you drive this car.

Compared with old-fashioned, bulky cars the Whippet appears smaller and much more graceful

It is a complete new car . . . designed and built as a unit . . . not an old-fashioned reconstructed chassis.

For over three years, Willys-Overland engineers in Europe and America have been developing it. Over 360,000 miles of road tests proved the practical advantages of this car before it was released for production.

11-inch 4-wheel brakes enable this car to stop in 51 feet from a speed of 40 miles per hour

The distinctive body lines of the Overland Whippet frankly resemble the smartest automobiles of America and Continental Europe. Stand in front of this car and you can imagine yourself on the boulevards of France.

Low-swung . . . rakish . . . graceful as a whippet . . . that's the only way to describe it.

Complete symmetry of design has been achieved with compact external dimensions.

Compared with contemporary big, bulky cars the Overland Whippet appears smarter and much more graceful. That's because height and length are in true artistic proportion.

In the Overland Whippet you have the feeling of riding closer to the ground . . . with the resultant sense of solidity and absence of that sidesway so noticeable in the conventional type of car. That high-up-in-the-air feeling is gone . . . here is a new kind of riding comfort. Step into this car and you will be surprised to find so much spacious room.

You can compare the Overland Whippet with all other American light cars on the basis of price alone. But from the standpoint of engineering, performance, comfort and quality, it has established an entirely new criterion by which all other light cars must be judged.

The Overland Whippet is furnished in three body styles . . . Sedan, Touring and Coupe.

Two engineering ideals combined

The Overland Whippet represents a combination of the most advanced European and American engineering thought.

See this new-type car

You have never seen a car like this before.

With the introduction of the Overland Whippet, it is not sound judgment today to consider the purchase of a less modern car.

A new trend of automobile design is dawning in America. Other light cars of this design will follow this one.

But today Overland . . . and Overland alone . . . offers you these unique engineering attainments.

In fairness to yourself, see this wonderful new-type car.

LAUGHLIN DOWNS TURK-NASH; TIES CHESTER FOR LEAGUE LEAD

Overcomes Four-Run Lead to Cop Contest

Three Hits, Sacrifice, Two Passes and Stolen Base Allow West Virginians to Come From Behind in Next to Last Frame.

WITH victory almost within their grasp, as a result of a 4 to 0 lead they had held for five innings, Turk-Nash faltered in the sixth period of yesterday's City Industrial league contest on Patterson field with Laughlin and the latter club negotiated two singles, a double, a sacrifice, two passes and a stolen base, which netted them six runs and the game. The final score was 6 to 4.

Though Turk-Nash batted twice after the debacle they failed to score. In both interima three men got on but on both occasions they failed to go around.

Threaten in Seventh.

Laughlin, in the first of the seventh, threatened to add to their commanding lead when Hunselman led off with a walk. Bucher was sent in to supersede Howell. Digman got on as D. Morgan booted his drive and the bases were filled as Parsons also drew a pass. But Bucher held on tenaciously and came out of the hole by retiring the next three men, Crawford flying to A. Bayley, Finley fanning and Herbert going out, J. Watson to R. Pollock.

Deshler, batting for Bucher in the final half of the seventh, fanned. E. Bayley did likewise. The crowd began to file out but McConnell injected a new thrill with a single and A. Bayley walked. Schneidmiller, however, struck out.

Digman, starting badly, finished strong. As a result of the victory Laughlin ties Chester at the top of the circuit.

McConnell singled sharply to left following E. Bayley's fouling out to Babb and scored on A. Bayley's double to middle. Schneidmiller was safe on Finley's low throw to Babb and stole second. Both runners scored on R. Pollock's double to middle after D. Morgan had gone out, Finley to Babb. E. Mundy doubled to deep left, scoring R. Pollock. J. Watson was retired, Digman to Babb.

Hunselman Starts Rally.

Hunselman walked in the sixth. Digman singled through short. Parsons doubled to deep right along the line and both runners scored. As the players stood around Parsons stole third. Crawford walked. Finley singled to left and Parson came in. Herbert sacrificed, D. Morgan to R. Pollock. Aufderheide drove the ball to Howell, who elected to try to get Crawford between third and home. In the zig-gagging that followed E. Bayley rushed in to assist, procured the ball, and finally decided to run down the fleetfooted gardner. In the short race that ensued Crawford, untouched, crossed the plate. Bayley threw the ball as he found himself distanced which got by Schneidmiller and Finley also scored.

Before E. Bayley retrieved the ball, rushing almost to the grand stand for it, Aufderheide, whose innocent blow of but a few feet that caused all the Nash-Turk trouble, reached thir base from where he immediately scored the victor's sixth run when Babb sent the ball down the third base line which Howell, fielding, assisted to R. Pollock. D. Morgan then threw out Babb at first base.

VICTORY MOTOR DEFEATS K. T. K.

VICTORY MOTOR, playing fine ball, defeated K. T. K. at Columbian park in a City Industrial league contest last evening 4 to 3.

Stoffel, starting to pitch for the potters, was found for three runs in the initial inning of play when two singles, two walks, an error and a sacrifice hit, netted the trio of tallies.

In the fourth a triple and a double gave the visitors another. Jennings then replaced Stoffel and held Mundy and his men scoreless during the remainder of the game.

Baker twirled well for the Victors, allowing but six safe bingles.

Wilson, tripling in the second, scored on Pennybaker's three bagger.

Rarden, singling and Lysle walking in the fourth, scored on a single by McShane over second.

Pennebaker, traded to K. T. K. for Pitcher Bucher, played his initial game at short for the potters. He had a perfect batting mark for the day, while McShane swatted .667 with two hits in three times up.

C. Strobel, playing for the first time with Victory Motor, contributed a triple and registered three putouts.

RUSTY CALLOW TO COACH PENN

By DAVIS J. WALSH.

NEW YORK, June 26.—Washington university, the hub of modern oarsmanship, may be about to make the supreme sacrifice once more that the field of eastern rowing may prosper. Four years ago, it gave up its first coaching genius when Ed Leader came on to Yale to develop an unbeaten system, which reached its climax yesterday with Yale's record-breaking victory over Harvard in 20:14 2-5.

Now, they say, the Huskies will be forced to give up another great coach, it being understood today that "Rusty" Callow will be in charge of rowing at the University of Pennsylvania when the season of 1927 rolls around.

As Good as Signed.

Pennsylvania, it was declared, has as good as signed the man who has resisted all eastern blandishments for several years and who, not more than a few weeks ago, sniffed a disdainful sniff at an offer from Harvard. At that time, it looked as though Callow would remain with Washington until death did them part.

But the latest angle on the situation is that "Rusty" has listened to a lot of slick city talk from Philadelphia, supplemented by the insinuating rustle peculiar to the restless banknote. They say he virtually has capitulated and be made no later than shortly after that announcement to this effect may the Poughkeepsie race on Monday.

Battles Toledoan In 36-Hole Final Today

Reaches Windup Match After Thrilling Clash With Youthful Dave Ogilvie, Which Ends at 19th; Hasmann Eliminated After Ragged Game.

By BEN STERN.

WESTWOOD COUNTRY CLUB, Cleveland, June 26.—Never was the old adage, "You Can't Down a Good Man," given better proof than in the case of the perennial Joe Wells, East Liverpool exponent of "Ye Ancient Scottish Game of Golf," who every year must needs administer a lesson to ambitious youngsters.

Joe, four times finalist, and twice champion, will meet Parker Campbell, blond, handsome Toledoan, with the consistent gallery of the fair sex, today in the 36-hole finals for the Ohio state amateur golf title.

Campbell Eliminates Hasmann.

The Toledoan, in order to get in the finals, eliminated Eddie Hasmann, Cleveland, present title holder, and finalist almost as many times as Wells.

In fact, the history of the Ohio tourneys for the past several years has been "Hasmann bows to Wells," or "Wells bows to Hasmann."

Campbell was semi-finalist last year at Akron. But that was the farthest along he ever got.

The fact that Hasmann has been off form throughout the matches and decidedly off form yesterday accounts for Campbell winning five and four.

Hasmann's Game Ragged.

Hasmann's wood shots were ragged, and when he should have been on the sixth fairway his ball was over near the seventh. His iron work was erratic, missing two two-foot putts, where the drop should have been as easy as dropping a tip into a bell boy's hand. There did not seem to be any chance to lose.

The real contest of the day was between Wells and David Ogilvie, Jr., long, lean and rangy, son of a Cleveland pro, and in our opinion one of the very, very best entered in the tourney.

Pick Wells as Favorite.

In fact, the lesser experience and his youth was all that kept Dave from winning.

It took the veteran 19 holes to win the match, but not before Ogilvie laid a half stymie on the lip of the nineteenth cup that cost Wells much effort to get about for a birdie 4.

Wells is picked as the favorite to win today.

INSIDE GOLF

By CHESTER HORTON,

Maker of 51 Golf Champions. "Golf's most successful teacher," says "Chick" Evans.

Play the midiron as you do the driver. If you are hooking too much watch the position of the ball off your left foot. Don't stand too open, because you hit down and fall away and around with it. You must hit the ball in the center of the club, and then your hands will tighten up unconsciously on the stroke. Do not swing so rounded. Swing more uprightly. Roll the wrists, too, if you want success. Try to stop the left hand, at the ball, and force the right through, the right wrist rolling over on top of the left. Take up all your clubs in the same manner, as all good golfers should. Here we see the driver going up with the left arm straight, the right elbow close to the body. This position of the arms operates to draw the body around into the finest pivot, and prevents waisting. The straight left arm makes the pivot automatic, as it should be.

Jones Gets Rousing Farewell As He Departs From London

LONDON, June 26—American amateur and professional golfers celebrated their triumph over the British linksmen at a farewell breakfast in the Hotal Savoy this morning. Immediately after the repeal Bobby Jones, winner of the British open championship, and several others left on the boat train to go aboard the Aquitania which sailed today for the United States.

Walter Hagen put the sentiment of the assembled golfers into words when he delivered a lengthy toast to Jones, concluding with the words:

"We have to beat Jones if we are going to amount to anything in golf."

The celebration was featured by the entrance of the glee club of Emory college which paused before Jones and sang "Dixie."

Bobby Jones was the center of an enthusiastic crowd that gathered on the platform at Waterloo to see him off on the Aquitania boat-train. He appeared slightly shy and nervous at the fuss that was being made over him.

The British press today generally acclim Jones as a mster golfer.

"Jones is the world's best golfer," said the Daily News.

The Westminister Gazette voices a rather pathetic note, when it reviews the American golf victories in England in the past two months and states:

"There is nothing to be done but to congratulate them, and call attention once more to the hopelessness of the effort to keep pace with a people who take their games as seriously as they take their business."

LAUGHLIN DOWNS TURK-NASH; TIES CHESTER FOR LEAGUE LEAD

Overcomes Four-Run Lead to Cop Contest

Three Hits, Sacrifice, Two Passes and Stolen Base Allow West Virginians to Come From Behind in Next to Last Frame.

WITH victory almost within their grasp, as a result of a 4 to 0 lead they had held for five innings, Turk-Nash faltered in the sixth period of yesterday's City Industrial league contest on Patterson field with Laughlin and the latter club negotiated two singles, a double, a sacrifice, two passes and a stolen base, which netted them six runs and the game. The final score was 6 to 4.

Though Turk-Nash batted twice after the debacle they failed to score. In both interims three men got on but on both occasions they failed to go around.

Threaten in Seventh.

Laughlin, in the first of the seventh, threatened to add to their commanding lead when Hunselman led off with a walk. Bucher was sent in to supersede Howell. Digman got on as D. Morgan booted his drive and the bases were filled as Parsons also drew a pass. But Bucher held on tenaciously and came out of the hole by retiring the next three men, Crawford flying to A. Bayley, Finley fanning and Herbert going out, J. Watson to R. Pollock.

Deshler, batting for Bucher in the final half of the seventh, fanned. E. Bayley did likewise. The crowd began to file out but McConnell injected a new thrill with a single and A. Bayley walked. Schneidmiller, however, struck out.

Digman, starting badly, finished strong. As a result of the victory Laughlin ties Chester at the top of the circuit.

McConnell singled sharply to left following E. Bayley's fouling out to Babb and scored on A. Bayley's double to middle. Schneidmiller was safe on Finley's low throw to Babb and stole second. Both runners scored on R. Pollock's double to middle after D. Morgan had gone out, Finley to Babb. E. Mundy doubled to deep left, scoring R. Pollock. J. Watson was retired, Digman to Babb.

Hunselman Starts Rally.

Hunselman walked in the sixth. Digman singled through short. Parsons doubled to deep right along the line and both runners scored. As the players stood around Parsons stole third. Crawford walked. Finley singled to left and Parson came in. Herbert sacrificed, D. Morgan to R. Pollock. Aufderheide drove the ball to Howell, who elected to try to get Crawford between third and home. In the zig-gagging that followed E. Bayley rushed in to assist, procured the ball, and finally decided to run down the fleetfooted gardner. In the short race that ensued Crawford, untouched, crossed the plate. Bayley threw the ball as he found himself distanced which got by Schneidmiller and Finley also scored.

Before E. Bayley retrieved the ball, rushing almost to the grand stand for it, Aufderheide, whose innocent blow of but a few feet that caused all the Nash-Turk trouble, reached thir base from where he immediately scored the victor's sixth run when Babb sent the ball down the third base line which Howell, fielding, assisted to R. Pollock. D. Morgan then threw out Babb at first base.

Campbell was semi-finalist last year at Akron. But that was the farthest along he ever got.

The fact that Hasmann has been off form throughout the matches and decidedly off form yesterday accounts for Campbell winning five and four.

Hasmann's Game Ragged.

Hasmann's wood shots were ragged, and when he should have been on the sixth fairway his ball was over near the seventh. His iron work was erratic, missing two two-foot putts, where the drop should have been as easy as dropping a tip into a bell boy's hand. There did not seem to be any chance to lose.

The real contest of the day was between Wells and David Ogilvie, Jr., long, lean and rangy, son of a Cleveland pro, and in our opinion one of the very, very best entered in the tourney.

Pick Wells as Favorite.

In fact, the lesser experience and his youth was all that kept Dave from winning.

It took the veteran 19 holes to win the match, but not before Ogilvie laid a half stymie on the lip of the nineteenth cup that cost Wells much effort to get about for a birdie 4.

Wells is picked as the favorite to win today.

INSIDE GOLF

By CHESTER HORTON,

Maker of 51 Golf Champions. "Golf's most successful teacher," says "Chick" Evans.

Play the midiron as you do the driver. If you are hooking too much watch the position of the ball off your left foot. Don't stand too open, because you hit down and fall away and around with it. You must hit the ball in the center of the club, and then your hands will tighten up unconsciously on the stroke. Do not swing so rounded. Swing more uprightly. Roll the wrists, too, if you want success. Try to stop the left hand, at the ball, and force the right through, the right wrist rolling over on top of the left. Take up all your clubs in the same manner, as all good golfers should. Here we see the driver going up with the left arm straight, the right elbow close to the body. This position of the arms operates to draw the body around into the finest pivot, and prevents waisting. The straight left arm makes the pivot automatic, as it should be.

Jones Gets Rousing Farewell As He Departs From London

LONDON, June 26—American amateur and professional golfers celebrated their triumph over the British linksmen at a farewell breakfast in the Hotal Savoy this morning. Immediately after the great Bobby Jones, winner of the British open championship, and several others left on the boat train to go aboard the Aquitania which sailed today for the United States.

Walter Hagen put the sentiment of the assembled golfers into words when he delivered a lengthy toast to Jones, concluding with the words:

"We have to beat Jones if we are going to amount to anything in golf."

The celebration was featured by the entrance of the glee club of Emory college which paused before Jones and sang "Dixie."

Bobby Jones was the center of an enthusiastic crowd that gathered on the platform at Waterloo to see him off on the Aquitania boat-train. He appeared slightly shy and nervous at the fuss that was being made over him.

The British press today generally acclim Jones as a mster golfer.

"Jones is the world's best golfer," said the Daily News.

The Westminister Gazette voices a rather pathetic note, when it reviews the American golf victories in England in the past two months and states:

"There is nothing to be done but to congratulate them, and call attention once more to the hopelessness of the effort to keep pace with a people who take their games as seriously as they take their business."

The Story Spreads

The most powerful motor of its size

500 more sold today. Study the trend

It has: Speed between 60 and 70 honest miles an hour.
Extraordinarily long sustained high speed.
Power on any hill to pass most cars in high.
Quick as a cat—acceleration 5 to 25 miles in 7½ seconds.
Powerful four-wheel mechanical brakes, the last word in safety.
54 horsepower, long stroke motor, rated at 20.
The tax saving is only part of its economy.

"LIKE a comet."

This is the way the new "70" Willys-Knight Six burst across America's motor-car firmament.

The evidence is conclusive. Only 6 months old—yet 30,000 sold in the past 90 days.

This new "70" Willys-Knight Six is admittedly the most up-to-date car in America.

It has the most powerful standard motor of its size so far produced in this country.

Tests prove it the most efficient automobile built—and the most active.

The motor of the new "70" Willys-Knight Six is an exclusive feature—*the famous Knight sleeve-valve motor, patented*—which other manufacturers would give millions to get.

Quieter, more powerful, more efficient than any other motor of its size when new, the Knight sleeve-valve motor grows smoother, more powerful, more efficient with every mile.

The motor of the new "70" Willys-Knight Six requires no carbon-cleaning . . .

It has no valves to grind . . . It has no springs to weaken.

It is practically fool-proof and wear-proof . . .

So far as we know, no Willys-Knight motor has ever worn out.

Sales prove this new "70" Willys-Knight Six is the most suitable car for most families. Please ride in it. You will find it the most economical and continuously satisfactory car you can drive.

The new Willys Finance Plan means less money down, smaller monthly payments; and the lowest credit-cost in the industry.

"70" Willys-Knight Six from $1295 to $1495; Willys-Knight Great Six, a luxury car as superior in its class as the "70", from $1750 to $2495. Prices f. o. b. factory. We reserve the right to change prices and specifications without notice. Willys-Overland, Inc., Toledo, Ohio.

FIRE MARSHAL GIVES WARNING

State Official Aims to Reduce Casualties on Fourth.

The "safe and sane" Fourth of July idea is becoming predominant in this country and it has resulted the last few years in a marked reduction in fires and casualties, which were the sobering aftermath of the old fashioned firecracking Fourth, according to State Fire Marshal C. L. Topping.

"However, there still is plenty of room for improvement," said the fire marshal. "Fireworks continue to add heavily to the fire loss of the nation and the killing and maiming keeps on in a modified way. This is the thing I am the most anxious to have prevented in West Virginia next month—the injury to children from handling the various explosive devices. All the pleasure to be derived from burning gunpowder on the Fourth would not compensate for the death or injury of one child.

"I note by the papers that fireworks are to feature a number of Independence day celebrations in the state, and no doubt this vivid expression of patriotic fervor will always retain its popularity on the Fourth and on other occasions of heightened enthusiasm. There is small danger from fireworks if they are in experienced hands. It is the firecrackers, the toy pistols with caps and blank cartridges that have caused hundreds of cases of lockjaw; the torpedoes and the other devices containing dangerous poisons that do the damage to life and property when promiscuously handled.

"The National Fire Protection association, which is devoted to establishing proper safeguards against loss of life and property by fire, is deeply interested in the 'safe and sane' Fourth of July movement and is urging its members to secure the adoption of suitable ordinances prohibiting the promiscuous use of fireworks in Independence day celebrations and to secure proper enforcement of existing legislation. I trust this request from an eminent source will be duly regarded."

FIRE MARSHAL GIVES WARNING

State Official Aims to Reduce Casualties on Fourth.

The "safe and sane" Fourth of July idea is becoming predominant in this country and it has resulted the last few years in a marked reduction in fires and casualties, which were the sobering aftermath of the old fashioned firecracking Fourth, according to State Fire Marshal C. L. Topping.

"However, there still is plenty of room for improvement," said the fire marshal. "Fireworks continue to add heavily to the fire loss of the nation and the killing and maiming keeps on in a modified way. This is the thing I am the most anxious to have prevented in West Virginia next month—the injury to children from handling the various explosive devices. All the pleasure to be derived from burning gunpowder on the Fourth would not compensate for the death or injury of one child.

"I note by the papers that fireworks are to feature a number of Independence day celebrations in the state, and no doubt this vivid expression of patriotic fervor will always retain its popularity on the Fourth and on other occasions of heightened enthusiasm. There is small danger from fireworks if they are in experienced hands. It is the firecrackers, the toy pistols with caps and blank cartridges that have caused hundreds of cases of lockjaw; the torpedoes and the other devices containing dangerous poisons that do the damage to life and property when promiscuously handled.

"The National Fire Protection association, which is devoted to establishing proper safeguards against loss of life and property by fire, is deeply interested in the 'safe and sane' Fourth of July movement and is urging its members to secure the adoption of suitable ordinances prohibiting the promiscuous use of fireworks in Independence day celebrations and to secure proper enforcement of existing legislation. I trust this request from an eminent source will be duly regarded."
